

ILLINOIS OPERATORS READY TO CONFER

FARRINGTON SAYS MINERS ALSO ARE READY TO MEET

Illinois President Replies to the Message of the International Executive Board—Compliments Them on Their Interpretation of Former Message and Says to Read it Again

ST. LOUIS, Mo., March 9.—Illinois coal operators and miners will attend a conference called by Secretary of Labor Davis with a view of averting the threatened coal strike April 1, both sides declared today, but Frank Farrington, Illinois president of the United Mine Workers, was frankly skeptical that any good could come thru governmental intervention at this stage.

Some operators meeting with the union executive committee shared his opinion.

Farrington said the miners would be ready to attend Secretary Davis' proposed conference if the secretary succeeds in getting the operators of the four states in the central competitive field together, but described the government's proposal as what John L. Lewis, international president of the United Mine Workers "has been playing for all along."

COMPTROLLER'S STAND CREATES STIR IN HOUSE

Would Advise Banks Not to Accept Certificates

WASHINGTON, March 9.—While announcement today by Comptroller of the Currency Crissinger that if the revised soldier bonus bill was passed he would advise national banks not to accept adjusted compensation certificates as security for loans to former service men, created a stir among members of congress, leaders regarded it unlikely that his stand would swerve a majority of the ways and means committee members from their determination to report the measure to the house.

With bonus opponents conceding that the bill would have enough friends in the committee to reach the house with a recommendation that it be passed, speculation centered on the attitude of Mr. Crissinger and its probable effect. Most representatives took the position that it would be best to proceed with the bill as drafted by Republicans on the ways and means committee but committee members were reluctant to express their views.

Republican leaders indicated there would be no change in the plans for consideration of the bill by the ways and means committee on Saturday with the expectation that it will be reported at that time for a vote on the measure under suspension of rules a week from Monday.

Bonus Gets In Debate.

Twice the bonus question broke into debate in the house—once when Representative Knight, Republican, Ohio, denounced the bill as "indisensible from either the economic or patriotic standpoint," and again when Representative Luce, Republican, Massachusetts protested against the plan to take the measure up under suspension of rules which would limit debate to forty minutes under ordinary procedure and would shut off amendments from the floor.

Mr. Luce declared it was proposed that the house after spending hours in desultory debate of "one of the greatest questions this congress has had to deal with."

Another development in the situation was the announcement by Representative Mills, New York, selected as a member of the ways and means committee to succeed Representative Haughton, resigned, that he was opposed to the bonus bill.

WOULD PAY FOR KILLING OF CHINESE.

WASHINGTON, March 9.—President Harding today sent a message to congress recommending payments of about \$6000 in claims "as an act of grace and without regard to legal liabilities" to families of three Chinese killed in China by members of the American naval forces.

STILL TRYING TO LEARN WHO WROTE PACIFIC TREATY

Opponents of Four Power Treaty Still Wrangling

WASHINGTON, March 9.—Charging that the four power Pacific Treaty resulted from a Japanese-British plan to offset the embarrassing effect of the Anglo-Japanese alliance, its opponents sought without success in the senate today to learn exactly by whom the original draft of the document was prepared.

Both of the senate's representatives on arms conference delegation, Senators Lodge and Underwood, declared in reply to direct questions that Secretary Hughes had conducted most of the negotiations leading up to the treaty. Mr. Lodge said "many hands" had helped in the drafting and redrafting and that he did not know who made the first suggestion. Mr. Underwood asserted that the first draft he saw was the final one.

The statements were made in reply to questions by Senator Robinson, Democrat, Arkansas, who told the senate when the cross questioning was over that although "we don't know and will never find out from any authentic source who wrote the first draft" he was inclined to believe that the finished product resulted from the joint labors of Arthur J. Balfour for Great Britain and Prince Tokugawa for Japan.

He assailed the treaty as an "alliance" and predicted it would do more harm than good.

Senator Robinson's inquiry in the origin of the four power idea was a part of a field day of debate which kept the senate floor in turmoil all afternoon. The treaty's opponents kept the floor throughout the session except for the explanatory statements of Senators Lodge and Underwood.

In the midst of the attack the senate recessed until tomorrow when the "irreconcilables" again are expected to take the offensive. Broadside against the pact were delivered by both Senator Robinson and Senator Reed, Democrat, Missouri, while Senators Borah, Republican, Idaho, Johnson, Republican, California, Shields, Democrat, Tennessee, Watson, Democrat, Georgia and others joined in with suggestions which struck at several conference treaties.

AIRSHIP ROMA IS BEING REASSEMBLED

NORFOLK, Va., March 9.—The giant semi-rigid airship Roma, destroyed at the army supply base more than two weeks ago with a loss of 34 lives, is being reassembled at the base. Enlisted men from Langley field began the work today and as fast as sections are placed together photographs are being taken. When the task is completed a photograph showing the blimp as she was when she started from Langley Field on her final voyage with the exception of the fabric covering will be sent to Washington.

The steel ribs of the Roma that were bent and twisted by the explosion that wrecked the ship have been straightened out as far as possible and are being replaced by experts practically as they were before the disaster.

SECRETARY OF INDIA RESIGNS

LONDON, March 9.—Edwin Samuel Montague, secretary for India resigned today. His resignation was found 24 hours after the event by the publication yesterday of the despatch from India which caused such a furor of indignation in the English press.

The message from the Earl of Reading, viceroy of India to Mr. Montague setting forth the feeling in India regarding the necessity for revision of the treaty of Sevres between Turkey and the allies.

The announcement of this new sensation was made by Austin Chamberlain the government leader in the house of commons which was at white heat over the situation and which greeted the news with prolonged cheers.

FORDNEY SLIPS SOME HOT SHOT INTO AUDIENCE

Escorted Soldiers to Depot But Didn't Go Any Further

(By The Associated Press)

CHICAGO, March 9.—The soldiers' bonus bill will be passed for humanitarian reasons and not as a political measure, Joseph W. Fordney, chairman of the house ways and means committee declared today in a speech before a meeting of the American Wholesale Lumber association.

"We are going to report the bill Saturday morning, ask for a suspension of the house rule on Monday morning and rush it thru before everything else," he said.

"The bonus bill as we have it now will pay the soldier a dollar a day for 500 days of home service or \$1.25 a day for 500 days of overseas service. He also can receive a 20 year paid up insurance policy on which he can borrow 50 per cent of his compensation from a bank."

"During the war while these boys were overseas, 5,500 strikes were carried on. The men were striking for shorter hours and more pay and they were doing it so successfully that up to November 11, 1918, not a single American shell piece had been fired during the war."

"You men sitting before me cheered them madly and marched with them to the depot. And you didn't go a damn step further."

Congressman Fordney also discussed the tariff assailing the "profiteering, criminal merchant who bought jack-knives for \$7.62 a dozen and sold them for \$102 a dozen."

"The person who advocates the manufacture of articles abroad which can be manufactured here is keeping our labor out of work," he continued. "The only fair and American valuation is for an American valuation. The United States to collect duty on a value fixed by the United States."

INGERSOLL PROPERTY SOLD TO WATERBURY

(By The Associated Press)

NEW YORK, March 9.—Subject to the approval of the court the property and assets of Robert H. Ingersoll and brothers, which recently went into bankruptcy, will be sold to the Waterbury Clock company for \$1,500,000 cash.

Announcement to this effect was made today by Edward H. Childs trustee in bankruptcy. Under the offer the Waterbury Clock company agrees to waive all its claims against the Ingersoll company and to pay additional cash considerations, bringing the purchase price to a total of \$1,750,000.

Assets of the company recently were estimated at \$3,300,000.

With the sale of the assets goes the capital stock of the Ingersoll Watch company Limited, of London. Assets of the British subsidiary consist mainly of cash, inventories and accounts.

The good will of Robert B. Ingersoll and Brothers is represented by the reputation of the company based upon 29 years of business. In that time the Ingersoll organizations sold between 48,000,000 and 50,000,000 watches.

ATTEMPT TO TRACE STOLEN BONDS

(By The Associated Press)

FORT SMITH, Ark., March 9.—In an effort to obtain further details surrounding the disposition of the \$26,000 in bonds stolen from the Iowa State Bank at Des Moines, Iowa, in March 1919, E. H. Hunter, former president of the institution left Fort Smith this afternoon for Tulsa, Okla., where he alleges a large block of bonds were negotiated. Hunter alleges \$26,000 in bonds and money were received in Fort Smith by Earl Ward son of Joe R. Ward, wealthy ice manufacturer, and in connection with this charge, Ward's father filed charges of blackmail against Hunter and George A. Dissmore, former cashier of the Iowa bank.

COMMISSION MAKES LARGE PURCHASES

NEW YORK, March 9.—The purchasing commission for Russian relief appointed by President Harding announced today the purchase of 450,000 bushels of seed rice, 1,060,000 bushels of corn and 8,760 tons of corn grits for shipment to Russian famine sufferers. It will be paid for out of the \$2,000,000 congressional appropriation.

PRINCESS MARY AND HUSBAND IN PARIS.

PARIS, March 9.—Princess Mary and Viscount Lascelles arrived this afternoon from London. They will leave for Italy tomorrow.

UNION HEADS AND RAIL MEN DISPUTE AT RATE HEARING

Charges of Influencing Public Opinion Are Made

(By The Associated Press)

CHICAGO, March 9.—Charges of hidden power in railroad labor organizations and counter charges of influencing public opinion by propaganda enlivened a day's presentation of statistics by western railroads in the wage hearings now in progress before the railroad labor board.

John G. Weber, appearing for the eastern roads, offered a mass of data in support of the roads' requests for lower wages for shop crafts employees, asking a graduated scale within limits to be fixed by the board, the carriers to pay wages prevailing in each locality for shop labor. Mentioning the standard country scale asked by B. M. Jewell head of the shop unions Mr. Weber remarked that agreements could have been reached on several roads "if the men had been free to express their wishes."

Mr. Jewell asked Mr. Weber to name any instance in local negotiations where the men were not free to act.

"There was the Elkhart dispute," Mr. Weber asked "where they not only threatened to throw him out but to have a lynching."

Heated Argument.

Further attempts by Mr. Jewell to draw specific instances of inability to come to a local agreement only brought heated assertions by Mr. Weber that union leaders could camouflage their power anyway they wanted to, but that it was felt in union locals just the same.

President Jewell threw back the charge that the association of railroads also wielded a power to lower wages simultaneously and to influence the public with appeals for lower wages, giving facts which the roads promised should be translated into lower freight and passenger rates. Mr. Weber then carefully explained that the railroads' association did not act concertedly.

J. A. Franklin, president of the Boiler Makers then declared: "But you created public sentiment by your propaganda from the railway association."

"You can beat the railways seven ways from Sunday on spreading propaganda," Mr. Weber retorted.

Both Mr. Weber and J. W. Higgins, representing the Western roads denied there was any collusion in presenting the requests for lower wages by the eastern and western roads, the argument continuing until Vice-Chairman Hooper adjourned the session.

BAPTISTS PLAN TO RAISE \$15,000,000

(By The Associated Press)

CHICAGO, March 9.—The executive committee of the Northern Baptist convention met here today to complete plans for a campaign to raise \$15,000,000 within the next two months to defray expenses of the annual meeting to be held in June and to carry on the work of the organization on a larger scale.

It is planned to reach every member of the denomination in the United States by April 30. The \$15,000,000 goal is a part of a \$19,000,000 quota set for the last fiscal year. It is hoped that two million dollars of the amount will be raised by women.

Each of the 34 states comprising the northern Baptist convention has been divided into districts with 10 to 20 churches to a district, it was announced.

IRISH FREE STATE BILL PASSES FIRST READING

London, March 9.—The Irish Free State bill formally passed its first reading in the house of lords today. The debate showed a disposition by Lord Carson, the Marquis of Salisbury and the Marquis of Lansdowne, to endeavor to amend the treaty between Great Britain and Ireland. Despite the rather "atoning tone" of these "die hard" speakers the belief prevails that the bill will pass the house of lords without serious difficulty.

GOOD SAMARITAN FURNISHES LIQUOR

Cambridge, Mass., March 9.—An up-to-date samaritan appeared today, presenting himself at a window of the detention room of the East Cambridge jail with a bottle of liquor tied to the end of a stick, he inserted the pole between the bars and was giving friends a drink when police officers appeared. Then he fled.

RUSSIAN DEATHS FROM FAMINE HAVE REACHED 200,000

This Statement is Given Out By the Commissioner of Health

(By The Associated Press)

MOSCOW, March 9.—The total deaths among the famine stricken people thus far is 200,000 if the ratio of deaths in the Ufa province one of the worst stricken districts has been maintained elsewhere says an estimate of Dr. Semashko, soviet commissioner of health given the Associated Press today. Dr. Semashko said that in Ufa, from the commencement of the famine, until February 22, 16,869 deaths from famine and disease emanating from the famine not including typhus, had been registered.

The report regarding Ufa represents the first approximately accurate figures of the actual deaths due to the famine. Dr. Semashko placed the total number of famine stricken at between twelve and fifteen million. He added that the province of Ufa held at least one-tenth of the total of the famine stricken and that if the death rate in Ufa is maintained for a year the total deaths would be between one million and two million. He added that typhus was decreasing.

HARDING GOES TO GOLF LINKS FIRST

(By The Associated Press)

ST. AUGUSTINE, Fla., March 9.—President Harding lost no time in going to the links upon arriving here this afternoon for week's vacation. Immediately after reaching his hotel from the station he donned his golfing clothes and, accompanied by Senator Gillett, under-secretary of State Fletcher and E. B. McLean, Washington publisher, played 18 holes on the St. Augustine links. He plans tomorrow to board Mr. McLean's houseboat for a cruise down the coast, stopping along the way to play golf.

The President and Mrs. Harding were greeted enthusiastically upon their arrival here by special train from Washington. Secretary Weeks who had been at Miami for several days, welcomed the party.

For several hours before reaching here the president worked on official business.

Fair weather greeted the president on this, his first day of vacation since last summer. Announcement was made that the president would accept no invitations to deliver addresses or attend public functions while in Florida.

DEMOCRATS ISSUE CONVENTION CALL

(By The Associated Press)

CHICAGO, March 9.—Call for the Democratic state convention to be held in Springfield April 21, was issued today by Ernest Hoover chairman of the Democratic central committee after an executive meeting of the committee here.

The convention will be held in the hall of the house of representatives. At the same time the Republicans will hold their state convention in the Arsenal.

The Democrats announced they will prepare a full state ticket.

WHOLESALE DRUGGISTS CAN GET YEAR'S SUPPLY

WASHINGTON, March 9.—Wholesale druggists may now stock up with a year's supply of "potable liquor" according to a new treasury regulation issued today by internal revenue Commissioner Blair.

Under the new regulation a wholesale druggist may procure an amount of liquor equal to ten percent of the value of his drug business sales during the past year instead of for only three months period as formerly but additional amounts of liquor may be obtained during the 12 months only with the approval of the commissioner.

SEEING THINGS IN OLD KENTUCKY

McKee, Ky., March 9.—Tracks of prehistoric animals, one of which is five-toed and eleven inches across have been found in the solid rock on the summit of the dividing ridge between the Kentucky and Cumberland rivers near here it was reported today. A three toed track of abnormal proportions is another stone plateau are the tracks of a heard of animals of great weight. Petrified tracks believed to have been made by humans also have been found, it was reported.

In the same vicinity a few years ago was found a tooth the size of a loaf of bread.

MRS. OBENCHAIN ON WITNESS STAND IN TRIAL YESTERDAY

Weeps as She Tells Her Story of the Slaying of J. B. Kennedy at Beverly Glen—Crowd in Court Room is Given Thrills—Says Th Kennedy Had Threatened to Kill Her

(By The Associated Press)

LOS ANGELES, Calif., March 9.—Mrs. Madalynne Obenchain, faltering and weeping, took the witness stand in her own defense today and told her story of the slaying of J. B. Kennedy, for whose murder she is being tried. TV shots were fired at him from the dark in front of his summer cottage in lonely Beverly Glen, she said. Then TV persons she could not identify flitted past her and disappeared. She and Kennedy went to the cottage at the latter's suggestion, she swore.

This was in direct contradiction of the state's theory, that Mrs. Obenchain persuaded Kennedy to go to the Glen at that by arrangement with her Arthur C. Burch, co-defendant in the case, lay in wait as they appeared.

Between the shots, according to Mrs. Obenchain, Kennedy cried: "Good night, Mazzlyn," and that after the second explosion she found him lying lifeless on a flight of steps in front of the cottage.

The story of the shooting was the climax of an all day examination of Mrs. Obenchain. When she concluded adjournment was taken until tomorrow when cross examination will begin. The crowded court room was given thrill after thrill by the tale Mrs. Obenchain related of her love affair with Kennedy. She told of meeting Kennedy five years ago and of her subsequent acquaintance with him, interrupted for a brief period in January, 1919, when she married Ralph R. Obenchain. But she was in communication with Kennedy again for a few weeks and finally secured a divorce from Obenchain. She denied that Kennedy refused to marry her as claimed by the prosecution asserting that Kennedy importuned her to consent to a secret marriage which she refused.

Says Kennedy Threatened Her.

Shortly before the tragedy, the witness asserted, Kennedy threatened to kill her if she would not marry him.

She admitted she asked Burch to come to Los Angeles last July; that she met him when he arrived and that she consulted him concerning her troubles with Kennedy.

When Burch left the train she said his baggage consisted only of a suit case and a magazine. Previous evidence at his trial was that he also carried a gun case.

Then they went up town she said, and they had dinner together at a hotel. It was there, she told Burch that she wanted his help with Kennedy and she told the jury that she had said at the time that she would not marry Kennedy without the consent of his people. She said Kennedy had urged a secret marriage, but that she had declined and it was after she had explained this situation to Burch that she sought his aid.

Mrs. Obenchain testified that during the week after Burch's arrival they were together much of the time. She said she took numerous automobile rides with him. In response to direct questions she said they never went to Beverly Glen where the shooting took place.

Mrs. Obenchain started the court room when she declared Kennedy came to her room in a local hotel last July and threatened to kill her if she did not marry him secretly.

"I objected," she said, then she said: "I've made up my mind that neither you nor I shall leave this room alive."

"He drew a revolver but I grabbed his wrist and told him to get out of the house," she said. Then he quieted down but said: "You will either go to Santa Ana and marry me or promise to go to Salt Lake with me or you will never leave this room alive."

P. O. EMBEZZLER IS FOUND GUILTY

Chicago, March 9.—Merle B. Inks, charged with the embezzlement of \$12,500 from the Franklin Park, Illinois, postoffice two years ago, was found guilty in the federal court here today. Inks, 29 years ago with Miss Irene McAuliffe, Franklin Park, postmistress taking with them the post-office money.

Postal inspectors trailed the couple thru several states, eventually arresting them in Cincinnati. Mr. Inks pleaded guilty to a charge of embezzlement but has not been sentenced.

WILL OPPOSE PEPPER FOR SENATE

Washington, March 9.—W. H. Burke, Republican, Pittsburgh serving his second term in the house as a representative-at-large from Pennsylvania today announced his candidacy for the senate "in opposition to Senator Pepper" who was appointed to the senate to serve until a successor to the late Senator Penrose could be elected at the polls next November.

Mr. Pepper's candidacy has not been announced.

SECRETARY DAVIS BREAKS SILENCE ON COAL STRIKE

Says the Government Must Protect Interests of the People

(By The Associated Press)

WASHINGTON, March 9.—Secretary Davis today broke the silence he has maintained during the days in which the government has actively sought intervention in the impending coal strike, and urged mine operators and the miners union in the name of common sense to get together and save the country from the costly results of a strike.

"The government has no desire to interfere unduly," he announced, but has a duty to safeguard the interests of the people who will be seriously affected by the suspension of coal mining."

Altho no immediate response were received at the secretary's office where the statement was issued, press despatches immediately reflected the interest taken by representatives of unions and operators in the coal strike. Reports were concerned largely with details concerning the discussion in the miners' organization where Frank Farrington, Illinois leader and other district heads are said to be beginning local negotiations in defiance of the policy of President John L. Lewis and the national executive board of the United Mine Workers. Reports also were received in it by representatives of individual mine operators who have in the past entered into national wage agreements.

The department's agents have been assured that miners' local in nearly all union fields are overwhelmingly voting to strike April 1, but this information has been discreet to a degree officials said because a strike vote quite often taken so that committee assigned to negotiate the business can act with fullest authority.

There was no disposition in official circles today to conceal the Mr. Davis' statement which explained again the government position was one result of the repeated refusal of Pennsylvania and other mine operators in the central competitive field to enter negotiations looking to another national wage agreement.

in the family cash box. That would be one form of charity.

Isn't it strange that when the state primary law was recently discussed at the constitutional convention that no spokesman rose to praise it? It was only a few years ago that the primary law was declared a great reform measure on the theory that it gave all the people an equal chance and saved them from the wicked bosses.

The farm bloc in congress ought not to be too jubilant over the improved farming situation. That is, the feeling of happiness should be held in abeyance until there is definite knowledge that the prices for farm products are established on the higher basis.

Following a government grain report that the farmers considered bullish the grain markets showed a decline of four or five cents a bushel on wheat and something of a decline for corn.

International President Lewis and State President Farrington of the miners' organization continue in their disagreements. Now Mr. Farrington indicates that the miners' organization of this state will seek a separate agreement with the operators unless a conference of several states is soon agreed upon. It may happen the war between Mr. Lewis and Mr. Farrington may be turned into a public benefit in the avoidance of a strike.

Boy Scouts are thoroughly organized in preparation for the labor situation survey that they are to make for the Chamber of Commerce. Residents of the city are urged to co-operate with the boys in making this information available. The Scouts have been assigned to definite territory and if the people will but help them by giving accurate facts with reference to available workers they will perform a worth while service for Jacksonville.

It is practically impossible to influence industrial concerns to come to Jacksonville without having accurate facts as to the labor situation.

IN A TRIAL COURT.

One who observes the progress of a criminal trial day after day cannot fail to wonder at the presiding judge if he shows himself thoroughly in command of the situation. In a trial of the kind now in progress in the Morgan County circuit court the judge must be constantly on the alert, both to protect the interests of the defendant, who is innocent before the law until proven guilty, and at the same time accord to the people their just rights.

The testimony in such a case is likely to be more contradictory and entangled than the testimony in a civil suit. In order to enforce the rules of evidence it is necessary for a judge to keep in his mind the important facts that

ed by each witness. Unless such knowledge is retained, he cannot with certainty rule as to the propriety of evidence that the attorneys may seek to bring out in cross-examination and rebuttal.

Judge Norman Jones has now seen so many years of service on the bench that a favorable comment upon his work is perhaps superfluous. Nevertheless, it is not improper to say that spectators during the present trial have been again impressed with his evident knowledge of the law and of the rules of evidence, and his unflinching watchfulness to keep the record free from error. The questions as presented by attorneys are sometimes involved and obscure, but there is never any doubt as to what is meant when Judge Jones completes a disentangling process.

MANCHESTER BUSINESS PROPERTY IS SOLD

Chester Blakeman Buys Property on West Side of the Square—L. C. Funk Buys Residence Property—Other Manchester News.

Manchester, March 9.—Chester Blakeman of Murrayville has just purchased the Watt building on the west side of the square, and expects to soon remove his creamery there. An addition will be erected and a number of other changes made in the property.

L. C. Funk has purchased the residence property of M. L. Robinson near the northeast corner of the square and expects to remove there in the near future.

Farewell for Pastor

A farewell party was given Wednesday evening for Rev. Fred Peek and family, who are soon to remove to Girard. There were about seventy-five in the company and the evening was very pleasantly spent with games and music. A splendid oyster supper was served during the hours. The guests brought with them a number of very substantial gifts for the minister and family, including a purse of money. It is with regret that members of the Baptist church see Rev. Mr. Peek leave, but all wish him success in his new work.

Miss Fay Greenwalt was able to resume her duties at the Keller school this week after an illness of several days.

Mrs. C. A. Boruff of Jacksonville is visiting her mother, Mrs. Margaret Wyatt, who is ill. Mrs. W. T. Reaugh of Jacksonville, another daughter of Mrs. Wyatt, returned to her home Monday.

Bodie Greenwalt who has been confined to his home by illness is now able to be out again.

C. H. Sutton and family moved Monday to the property belonging to Mrs. C. A. Hughes.

Miss Nellie Duncan returned Wednesday from New Windsor, where she was called by the illness of her brother, Russell Duncan. The latter was able to return to Manchester with her and will remain here until he is able to resume his duties as principal of the New Windsor school.

Dr. J. W. Wells was a Jacksonville visitor Thursday. Miss Ilma Brown, who has spent the past several weeks with her grandmother, Mrs. Katherine Brown, in Manchester, has returned to her home in Murrayville.

Missionary Circle Met

The Methodist Missionary Circle met with Mrs. G. D. Barnes Wednesday afternoon. Mrs. G. N. Lucas was in charge of the devotionals and Mrs. Olin Lee was the program leader. The topic was "The Missionary Dollar—how to make and how to use it. The hostess served refreshments of pumpkin pie, whipped cream and cocoa.

Bernard Bunch moved this week to a farm near Winchester. William Edwards moved to the place vacated by Mr. Bunch, and Kenneth McConnell to the McConnell farm vacated by William Edwards.

Mrs. Anna Caldwell and niece, Miss Emily McCracken, visited White Hall Wednesday.

School Dismissed Friday

School was dismissed Friday in all but the primary department on account of the state teachers' meeting in Springfield.

Still Bros. of Murrayville have opened a creamery in the Robinson building here, known as the Pioneer creamery.

Miss Wilmet Murray of Hill-

WINCHESTER S. S. CLASS HAD MEETING

Members of S. S. Class Met at Home of Mrs. C. W. Smith—Funeral of Mrs. Cohagan Saturday—Other Winchester News.

Winchester, March 9.—Twenty-one members of J. M. Riggs' Sunday school class held a meeting at the home of one of their members, Mrs. C. W. Smith, Thursday evening. After the transaction of business came a social hour. The serving of refreshments was one of the features of the evening.

The funeral of Mrs. Samuel Cohagan will be held from the late residence Saturday afternoon at 2:30 o'clock. Rev. Mr. Corrie will officiate.

The Legion Follies given at the Lyric theatre Thursday drew a large and enthusiastic audience. The entertainment included two comedies, specialties, solos and chorus numbers. The costumes were exceedingly pretty and the orchestra music added greatly to the success of the production. Altogether it was a very pleasing entertainment, according to those who were present. The Follies will be repeated Friday evening.

Mrs. Arch Savoy of Naples arrived Thursday, called by the death of her grandmother, Mrs. Samuel Cohagan.

Mrs. C. W. Smith, daughters Dorothy and Frances, left Thursday afternoon to visit relatives in Jerseyville and Carrollton.

Mrs. Warren North, who is suffering from pneumonia, was in about the same condition Thursday.

The county superintendent of schools, Miss Olive Wells, and Supt. C. W. Smith will leave Friday morning for Springfield to attend the state teachers' meeting. Miss Elizabeth North has returned to her home from a visit with relatives in Harvard, Neb.

FUNERALS

Tannahill.

The funeral of Mrs. Leslie Hannan was held yesterday morning at 10:30 o'clock at the Baptist church in Franklin. Rev. Edward Curry of Waverly officiated and the services were largely attended.

The music was furnished by Mrs. M. D. Henderson, Mrs. Edward Seymour, Mrs. A. B. Rees, Mrs. Julia Wright, Mrs. John Bottemeyer, Edward Seymour and Wilbur Seymour. Mrs. Truth Bottemeyer accompanied the singers.

The bearers were Louis Roberts, William Whalen, Charles Harte, James Woods, C. E. Jolly, and Kenneth Woods. Interment was made in the Franklin cemetery.

WITH THE SICK

Mrs. Roy Fernandes, who has been a patient at Our Saviour's Hospital for the past month was able to return to her home on West North Street yesterday.

Frank Boatman of Arcadia paid the city a business visit yesterday.

Pansy seed brings \$16 an ounce.

view is visiting her grandmother, Mrs. Joseph Rochester, in Manchester.

Mr. and Mrs. Harry Craig of Woodson spent Wednesday with Mrs. Craig's parents, Mr. and Mrs. M. S. Howard.

Mrs. Ella Watt and daughter Neta of Alton are visiting friends here.

Mrs. Emily Hayes and Mrs. Mary Spencer are on the sick list.

Mrs. Anna Swanson of Jacksonville was a business visitor Thursday in the telephone office.

Mr. and Mrs. Fred Collins of White Hall were visiting friends here Thursday.

The Baptist Ladies Aid held an all day meeting Thursday at the home of Mrs. George Matthews. There were twenty four women present and they spent the day quilting and sewing. An elegant dinner was served at noon.

Mrs. Jean Knight, Mrs. A. E. Knight and Robert Way, all of White Hall, and Mr. E. L. Jennings of Alabama visited G. D. Barnes and wife Wednesday.

WORK ON MEREDOSIA BRIDGE PROGRESSING

Building of Approach to Bridge Completed Yesterday—Pike County End of Bridge Now Scene of Activities.

The work of building the approach to the Meredosia bridge was begun last Monday morning and the work was pushed with such vigor that it was completed late Thursday afternoon. Today similar work will begin at the Pike county end of the bridge, and in fact, some of the clearing and preparation for the grading has already been done.

The work was started under the supervision of William Roegge, one of the committee, and then the superintendent's work passed to L. F. Berger and still later to C. T. Hedrick. These three members of the committee will alternately give their services in supervision.

About a dozen scrapers, part of the of the wheel type and the others slips, are being used in the work. The men are all Meredosia residents and so thoroughly interested in the work that it has moved along with more than customary speed.

The representatives of the Wabash who have looked over the work were very complimentary to the Meredosia men for the rapidity with which they have removed 2,500 yards of earth with the force at hand. It is the expectation that the work at the Pike county end of the bridge will proceed with the same speed.

ANNOUNCEMENT

We announce a special display of all the newest creations in spring millinery for Friday and Saturday. Everyone cordially invited.

F. J. WADDELL & CO.

MR. BANCROFT CANDIDATE FOR CENTRAL COMMITTEE

Thirty error yesterday reference was made to the candidacy of Horace H. Bancroft for the post of member of the Republican senatorial committee. The news item intended to refer to Mr. Bancroft's candidacy for membership in the state central committee as representative of the 20th congressional district. Because of the initials filed at a late hour Tuesday, Mr. Bancroft has become the only candidate.

Mr. Bancroft has been prominent in party affairs for a long period of years and is fully entitled to the honor that membership in the state central committee carries with it. He is a man of political judgment and discretion and further because of his personal high standing will no doubt be a satisfactory representative of the Republicans of the district in the state convention.

ENGLISH GIRL HAS HIGH TEMPERATURE

Bristol, Eng.—By the A. P.—The extraordinary figure of 114 degrees Fahrenheit was the recorded temperature of a girl here who was suffering from the grip.

When first summoned to see the girl the physician said he was astonished to find that his clinical thermometer recorded a temperature of 112 degrees but thinking that the thermometer was out of order, he requisitioned two others only to find that they both recorded the same high point.

During the night the patient's temperature advanced two degrees. Appropriate treatment was once applied, the girl's temperature gradually subsided to normal or thereabouts, and she is now stated to be in perfect health.

Medical journals here do not record an instance of such temperature being followed by the patient's recovery.

JUDGE BURTON IS RECOVERING FROM ILLNESS

Carlville, March 9.—Judge F. W. Burton of this judicial circuit court, who has been ill at his home here since last Saturday, will convene court here again Friday. It is Judge Burton's expectation that he will be able to preside at the circuit court of Sangamon county at least during a part of the coming week.

Last Fall Judge Burton had an attack of la grippe and since then two relapses have occurred, resulting in confinement to his home. The judge is now hopeful that his court work will not soon again be interrupted by illness.

RECEIVES WORD OF AUNT'S DEATH.

Mrs. Elmer J. Henderson of this city received a telegram last evening telling of the death of her aunt, Mrs. Barbara E. Horton, who passed away at her home in San Antonio, Texas, March 8th at 5 o'clock in the afternoon. Mrs. Horton has a number of relatives and many friends in Jacksonville and vicinity who will regret to know of her death.

ALEXANDER.

Mrs. Joseph Ryan of Arcadia is spending a few days with friends in Alexander. John Colwell was a Jacksonville visitor Thursday.

FUNERAL NOTICE

Funeral services for Herman F. Nordett will be held from the Gilham Funeral Home at 2:30 o'clock Sunday afternoon. The services will be in charge of Illini Lodge No. 4, I. O. O. F.

PLAN GRAND DISPLAY SPRING MERCHANDISE

All Merchant are Invited to Take Part — Will be Held During Automobile Show.

Plans for a grand opening and display of spring goods to be held in Jacksonville during the week of the automobile show and merchants and manufacturers exposition were announced yesterday at a meeting of the trade extension committee and automotive dealer's association held in the Chamber of Commerce rooms Thursday morning.

It had been intended that all merchants interested in the display of new spring goods be invited but through a regrettable misunderstanding notice was sent only to members of the trade extension committee.

There was good attendance, however, and much enthusiasm was shown for the coming show and spring opening. Lloyd Reid was chosen temporary chairman. J. G. Berger talked for the auto dealers, urging co-operation of all to make the coming show a success. He stated that it is everybody's show. J. F. Claus also made a talk along the same line.

Frank Rouer or Waddell and Company, offered a resolution on behalf of the merchants endorsing the proposed show and to the effect that all the merchants should arrange spring displays during show week and should do all in their power to make the affair a success. This however, was to be the work of the individual merchant and in a manner best suited to his means and interests. Each member is requested to make attractive window displays and to as far as possible, incorporate the new official colors of gold and blue adopted by the Chamber of Commerce.

A committee was appointed to secure amusement for the visitors in the manner of entertainment to be given on the second floor of the Auto Inn. This committee is composed of Lloyd Reid, William Floreth, Fred Darr, Louis Horen and Sherman Dorand.

HIGH SCHOOL NOTES.

Miss Edle Mehus of the faculty of Music at I. W. C. was at the high school yesterday morning and played a number of piano solos at the assembly hour. The students were very enthusiastic with their applause and Miss Mehus responded with several encores.

A large crowd of high school students went to the depot last evening to give the basketball boys a good sendoff when they left over the Wabash at 9:15 for Decatur to compete in the sectional tournament.

Mr. and Mrs. John Fox of New Berlin were doing shopping in the city yesterday.

Mr. and Mrs. Paul Reid of the Ebenezer district were doing shopping in the city yesterday.

DOKAYS READY FOR SPRINGFIELD GAME

All Set to Meet Myers Brothers Team in David Prince Tonight—Record Crowd Is Expected.

The Dokays are all ready to meet the Myers Brothers five when the whistle blows tonight at David Prince gym. They have put in a week of hard practice and with all their men in the pink of condition expect to have at least equal chances with the Sangamon county lads.

Local fans were sorry that the local high school could not get another chance at the Springfield High school but now that the Dokays are booked with the Myers Brothers team, the two cities can again battle together.

Springfield has a very fast team composed of the following: "men, Schneider, English and Greenan, forwards; Eltelson, center; Livingston, Berg and Henke, guards.

Local fans are well acquainted with the Myers Brothers' lineup, having seen them in action in former years with the Springfield High school.

The Dokays will use their lineup of Woods and Lucas, forwards; Smith, center; Jones, Reynolds and Covey, guards; Gustafson and Barton, utilities.

A record house is expected as this promises to be one of the fastest games seen heretofore and should the Dokays come out the winner, it would class them as Central Illinois independent champions.

Manager Siegfried stated that this will probably be the last game of this season for the Dokays.

The game will be called at 7:45 p. m., but will be preceded by a curtain raiser, same to start at 7 p. m., between Boy Scout Troop No. 4 of the Central Christian church and Boy Scout Troop No. 7.

ROGERS HORNSBY WILL SIGN UP

ST. LOUIS, Mo., March 9. —Rogers Hornsby, leading batsman of the National League, a holdout, this afternoon agreed to sign a contract, and will depart soon for the Cardinal's training camp at Orange, Texas, it was announced.

The agreement was reached after a long conference with Manager Branch Rickey. The terms of the contract was not made public but it is understood that the salary is between \$20,000 and \$25,000 with a clause increasing the salary if the club finishes first, second or third in the league race.

Hornsby has been demanding \$25,000. The contract is said to make Hornsby the highest paid player in the league.

THIEVES STEAL BIG THERMOMETER

The big thermometer stationed on the front wall of the stationery store of W. B. Rogers of West State street was taken from the wall last night. In order to release the instrument tools were necessary as it was securely fastened.

It is puzzling to know what any one would want with such an instrument as its size and being an advertising instrument would make it undesirable, besides March weather is not at extremes, neither cold or hot.

OHIO B. B. COACH RESIGNS POSITION

Columbus, O., March 9.—Resignation of George M. Trautman as basketball coach at Ohio State University was announced tonight. He will devote all his time to the position of assistant athletic director, he said.

G. D. Robinson of Columbus was elected captain for next year.

DANVILLE BASEBALL FANS ORGANIZE

Danville, Ill., March 9.—At a meeting of the Danville Baseball Fans' association tonight H. Clay Smith, local manufacturer, was elected president and will have charge of the local Three I club the coming season. Other officers are: Vice President, W. H. Stephens; Secretary, R. H. Frankeberger; Treasurer, James A. Foster.

Charles O'Day, of Decatur, was appointed manager with authority to select players. President Smith will attend the meeting in Chicago next Tuesday when a playing schedule will be adopted.

Ladies and Gents Tailoring, Repairing, Cleaning, Pressing, while you wait. FRANKENBERG, N. Main.

LEWIS FLOPS ANOTHER BULLETIN.

Nashville, Tenn., March 9.—Ed (Strangler) Lewis, world's heavy-weight champion wrestler, retained his title tonight by throwing Joe Petroff, Bulgarian heavy-weight, with a flying headlock after an hour and twenty three minutes. Petroff's manager, Ivan McMichaeloff protested use of the headlock and refused to let his man return to the mat.

Spearing sword fish is a sport in Nova Scotia waters.

TOO LATE TO CLASSIFY.

U. OF I. BASKETBALL MEN GET LETTERS

URBANA, Ill., March 9.—Letters and numerals were awarded to varsity and freshmen varsity basketball men here today. The varsity men who received letters were Captain C. R. Carney, of Evanston; S. Collins, Rockford; J. P. Sabo, South Bend, Ind.; H. B. Tabor, Sullivan; L. M. Stillwell, Olney; R. H. Popken, Oak Park; O. H. Vogel, Davenport, Ia.; and W. H. Roettger, St. Louis. Four men, Carney, Collins, Sabo and Tabor will be graduated this year.

Freshmen varsity men given numerals were:

T. B. Carnes, Fairbury, captain; R. L. Armstrong, Terre Haute, Ind.; W. W. Barrett, Hume, F. O. Brown, Wilmette; E. J. Harrington, Plano; J. T. Ives, Delphi, Ind.; J. L. Johnson, Mt. Vernon; C. C. Lipe, Decatur; E. A. Mellwain, Highland Park; C. R. Parker, Hubbard Woods; D. W. Patterson, Streator; P. A. Pfeiffer, Chicago; L. B. Schlappitz, St. Louis; E. G. Schulte, Geneseo; M. E. Smith, Hyde Park; J. A. Taylor, Springfield; J. A. Vandorn, Quincy; G. A. Walker, Huntington, Ind.

WABASH SWAMPS ILLINOIS WESLEYAN

INDIANAPOLIS, Ind., March 9.—Wabash and Kalamazoo, were winners in the first round play of the National Intercollegiate Basketball tournament tonight.

Wabash, contenders for the championship of Indiana rushed thru the defense of Illinois Wesleyan, champions of Illinois Intercollegiate association for an easy victory of 29 to 16. Second string men were used against the Illinois team during most of the contest.

Kalamazoo, Michigan State champions opened a bewildering attack against Idaho, champions of the Pacific Coast conference in the other contest which the latter team was unable to solve, Kalamazoo winning 38 to 32.

Mercer University runner up in Southern Intercollegiate tournament, will meet Wabash tomorrow night in the semi-finals and Grove City College of Pennsylvania will play Kalamazoo.

WILL ERECT STATUE OF MATHEWSON.

NEW YORK, March 9.—A heroic statue of Christy Mathewson delivering his famous fade-away is to be erected in Von Courtlandt Park by amateur baseball players of New York City. The model for the statue the work of Gertrude Boyle has been completed, funds have been raised and the amateurs await only permission from the city to use the park in honoring their beloved "Matty."

WILLS HAS X-RAY MADE OF INJURY.

NEW YORK, March 9.—Harry Wills, negro heavy weight went to a hospital to have X-ray taken of his right hand which he injured in dealing a knockout to "Kid" Norfolk last week.

He told surgeons he belived the injury was in the same spot where he was hurt in a ring battle several years ago.

YALE SHOOTERS DEFEAT OXFORD

NEW HAVEN, Conn., March 8.—Yale defeated Oxford in an international rifle match yesterday 740 to 708. The Oxford team score was received by cable from England today.

BOWLING MARKS PROVE TOO LOFTY.

TOLEDO, Ohio, March 9.—High marks set during the first week of the American Bowling Congress tournament here proved too lofty for bowlers who competed today in the minor events.

None of the two men entries was able to come anywhere near the first ten in that division, the 1169 bowled by the Mills and G. Oswald of Grand Rapids, Mich., being the best for the day.

YANKEE FIVE WINS FROM J. H. S. SECONDS

Defeated Opponents in Fast Game 22 to 17—May Play Another Game at David Prince Gymnasium.

In a fast and exciting game the Yankee Five defeated the Jacksonville high school second team at Liberty hall Thursday night by a score of 22 to 17.

The game was a hard fought one and was anybody's victory until the final whistle. At the end of the first half the Seconds were leading by a score of 11 to 9.

In the second half Gebert got to going good and scored five field baskets. This with three free throws by Blesse put the Yankees in the lead and gave them the game.

Gebert was the scoring star for the winners. He scored 17 of the Yankee's points and was a hard man for the Seconds to stop. Aside from Gebert the other Yankees were unable to break thru the Seconds' guards, Trahey getting one field goal.

Nunes, Mutch, Benson and Harrison scored the points for the Seconds. The work of Harrison and Laney at guards was good for the Seconds.

McNamara and Pulaski played a strong defensive game for the Yankees and it was their work that held the Seconds down, most of their shots being long ones.

The game was witnessed by a fair sized crowd and much enthusiasm prevailed. It is probable that the teams will play another game at David Prince gym in the near future. The score:

J. H. S. Seconds: F. G. F. T. T. S.

Nunes, f. 1 0 2

Benson, f. 2 0 4

Mutch, c. 3 0 6

Harrison, g. 2 1 5

Laney, g. 0 0 0

Totals 8 1 17

Yankee Five: F. G. F. T. T. S.

Trahey, f. 1 0 2

Gebert, f. 8 0 17

Curtis, f. 0 0 0

Norris, c. 0 0 0

With the Grand Prize
Eureka Electric Vacuum Cleaner

Your Work will be
A Pleasure

and your Home a Delight

The measure of Eureka Superiority lies in the great volume of air that rushes thru the nozzle—and the Velocity at which it travels.

The wonderful little Eureka Motor creates an exceedingly high vacuum that pulls a great volume of air through the carpet or rug; and the velocity at which this air travels loosens every particle of dust or dirt embedded in the fabric and carries it up into the dust bag.

The carpet or rug is left perfectly clean and sanitary.

The Eureka cleans in the most thorough manner not only all carpets and rugs—but with its numerous attachments it is just as effective in the cleaning of upholstery, mattresses and draperies.

The brush inserted in or attached to the nozzle of this type of cleaner is there solely for the purpose of removing the lint, hair and threads from the surface. The air gets the dirt—the dirty, unsanitary dirt embedded in the rug or fabric.

E. D. JOHNSON DIES AT CARROLLTON

Deceased a Well Known Resident of Greene County—Wife Formerly Lived Here.

Carrollton, March 9.—Edward D. Johnson, a well known resident of this city, died here this afternoon. The deceased was born in Jerseyville on April 22, 1852, but in early life he came to Carrollton and has since continued to reside here.

In 1885 Mr. Johnson was united in marriage to Miss Lottie English, daughter of the late James W. English. The widow survives together with one son, Alfred Johnson, and two daughters, Mrs. W. L. Close and Mrs. George Whiteside. Mrs. Johnson, who was formerly a resident of Morgan county, is a sister of Master in Chancery Henry W. English of Jacksonville.

HURRAY WE CAN GET FREE SEED AGAIN

Washington, March 9.—The house put back into the agricultural appropriation bill today the \$360,000 item for free seed which was cut out by the committee in framing the measure.

Friends of free seed, satisfied they could win again as they had for 20 years, carried on like a crowd at a carnival during the brief battle which they won by a vote of 145 to 65.

ACCEPTS INVITATION TO VISIT MEXICO

Chicago, March 9.—James R. Howard, president of the American Farm Bureau Federation has accepted an invitation of the Mexican government to send a commission to investigate the possibilities of enlarging markets for agricultural products in Mexico. Mr. Howard will head a commission of farm bureau representatives which will go to Mexico this month.

AMERICAN BORN JAPS HOLD LAND

The Gulbransen Inspires Better Singing of Better Music

Young folks' voices develop quickly with a little study and practice. Singing opens an easy road to the appreciation of good music—far easier and more enjoyable than any instrumental study.

Who shall play for them to sing? You answer that question the moment you get a GULBRANSEN Player Piano. Anyone can learn to play it well. And what music? Hundreds of good songs are ready in player-rolls; words on the roll; no sheet music to buy.

Your first week with a Gulbransen, you can learn to play acceptably the kind of music you would stumble over after five years of hand practicing. You can prove this in ten minutes at any Gulbransen dealer's store. Please do it. Find out what the Gulbransen will do for you and yours.

MORE TROUBLE IN SIGHT FOR THE PRINCESS

Woman With Cigarette Title Is Now Accused of Smuggling

(By The Associated Press)
NEW YORK, March 9.—The 44 carat diamond which eight months ago blazed the way for Princess Fatima, Sultanah, Kaboul into the presence of President Harding may delay her departure for Afghanistan which was to have taken place tomorrow.

Charging that the fabulous stone was smuggled into this country, officials of the customs department sought today to gain possession of it.

But Sheriff Nagle who had held the diamond for several months as security for numerous creditors refused to give it up.

After hearing arguments, supreme court justice Lehman advised the latter to obtain a federal order directing that the stone be turned over to them. The agents announced they would do so.

Princess Fatima, whose bediamonded nostrils and dazzling wardrobe amazed Broadway on her arrival last July, expressed little interest when she learned of the charges that she evaded duty on her jewel. She continued packing her meager effects preparatory to sailing for her native land.

The princess came here to ask the United States to give her an estate befitting her rank. Her jewels, her clothes, her mission and her childlike eccentricities aroused unusual interest.

Stephen Weinberg, now a prisoner charged with numerous impersonations attached himself to the princess as her manager. He managed her reception by President Harding at the white house when she asked for a government estate and learned that such things weren't being done.

Diamond Is Attached.
The princess returned to her New York hotel broke and contracted with Weinberg to sell her big diamond at not less than \$350,000, announcing she would buy an American estate with the proceeds. The hotel men and other creditors became clamorous and attached the stone.

The royal entourage, meantime had become desperately low in finances until finally one of Fatima's sons negotiated a \$2,000 loan on the famous gem. That was in November. Since then the fortunes of Fatima household have made a rapid descent. When discovered by the Salvation Army they were living in squalor in a tenement on the East side. Finally government authorities hinted to the British Consulate that since Afghanistan was a British protectorate that country should assume responsibility for the princess and her family. Since then she has been a "guest" of the British government.

The princess will wear her nose jewel back to Afghanistan but the big diamond will remain in a safe deposit vault here to await settlement of the demands of her creditors and customs officials.

AMERICA AND ENGLAND JOIN

London—By the A. P.—The Sulgrave Institution, which is primarily concerned with fostering friendly relations between this country and America, has decided to appoint a national board of 50 British and 50 American members.

It has also been decided to vest the property at Sulgrave Manor, the birthplace of George Washington, in a joint British and American body of trustees consisting of 18 members.

President Harding has promised to give to Sulgrave Manor an elm tree from Mount Vernon, Washington's home in Virginia, and Mrs. Harding has promised a cutting from Martha Washington's rose tree at Mount Vernon.

CAREFUL CHECKING WILL BE NECESSARY

Chicago, March 9.—It may be several days before creditors of the bankrupt brokerage firm of Kriebel & Co., can obtain an official statement of the firm's assets. W. W. Weelock, receiver said today. The transactions of the firm are of such large volume he said it would take careful checking before an accurate statement can be made.

WOULD ABOLISH INDUSTRIAL COURT

Topeka, Kansas, March 9.—Abolition of the court of industrial relations and the state highway commission and postponement of road building programs in Kansas was demanded in resolutions adopted today by the Kansas Taxpayers' association.

HAWKINS IS EXONERATED

East St. Louis, Ill., March 9.—John D. Hawkins, chief inspector at the National Stock Yards, was exonerated by a coroner's jury this evening following the request of the killing of Mark Larkin, deputy state inspector of cattle, who was shot to death this morning by Hawkins. Hawkins testified he had acted in self defense after he had been knocked down by Larkin, who had threatened his life on several occasions.

PRODUCTION OF HEMP FELL OFF

Manila, P. I.—By the A. P.—The total production of Manila hemp in 1921 was 695,822 bales, compared with 1,051,601 bales in 1920, a reduction of about thirty per cent. The decrease in production is ascribed to the poor demand, especially in the United States, which is the chief consumer of hemp.

OLLIE YATES HELD SALE WEDNESDAY

Ollie Yates held a sale at his farm near New Berlin Wednesday. It was largely attended and the proceeds totaled about \$3,000. Charles M. Strawn was the auctioneer and William Pfeiffer served as clerk. Some of the buyers and prices follow:

Lee Walsh, team of horses, \$189.50.
C. B. Shuff, span of mules, \$177.50.
J. F. Thornton, mare, \$37.
J. J. Hanrahan, mare mule, \$70.
Ed Stett, mare, \$44.
P. J. Meecker, cow, \$62; one at \$64; one at \$14.
W. M. Goff, cow, at \$41.
J. J. Hanrahan, sow, at \$40.
Fred Thornton, cow, \$40.

WOODSON TEACHER IS PLEASANTLY SURPRISED

J. Chester Colton Given Surprise Party by Eighth Grade Pupils Thursday Evening.

J. Chester Colton, principal of the Woodson public school, was given a very pleasant surprise on Thursday evening. The event was planned by the mothers of the 8th grade pupils, as an evidence of their appreciation for Mr. Colton's services.

Mr. Colton was away from his home in the early evening but was later summoned home. Arriving there he found his self-invited guests and a brief program was carried out. Mrs. Lou Henry speaking on behalf of the mothers, expressed gratitude to Mr. Colton for his services during the past year and prior to that time. Miss Bernice Kitter, on behalf of the girls of the class, made brief remarks and the same was true of Paul Jones, representative of the boys of the class.

Mr. Colton then briefly expressed his pleasure at the presence of the guests, and said that he was greatly enjoying the occasion although taken so completely by surprise.

An interesting feature of the program was a prophecy or glance ahead to the year 1942, given by Mrs. R. R. Jones. This was very cleverly gotten up and proved exceedingly amusing to all present.

The latter part of the evening was spent with games and contests of various sorts, and before the guests departed refreshments of ice cream, cake and coffee were served.

The work of Mr. Colton in the Woodson schools has been especially noteworthy. The eighth grade class includes sixteen boys and girls and in the recent central examinations they all made excellent grades. The class members are Maurice Self, Bernice Kitter, Bernice Henry, Helen Robson, Edith Watts, Meda Megginson, Fay Shelton, Don Cunningham, Harry Ezard, Wilbur Taylor, Paul Jones, William Crain, Roy Smith, Floyd Harney, Harold DeLong and Fred Orris.

PUT THREE NAMES ON ON REPUBLICAN BALLOT

Dixon, Ill., March 9.—The Republican senatorial committee of the thirty-fifth district, comprising Lee, Whiteside and DeKalb counties today asked Secretary of State Emmerson to place the names of three Republican candidates for representative on the ballots in this district.

Heretofore the Republicans have been content to elect two members of the house allowing minority representation. John P. Devine, Democratic leader in the house during the last general assembly was the minority representative from this district. Whiteside county has two and Lee county has three Republican candidates for the house. Devine is unopposed on the Democratic ticket.

GIVES HIMSELF JAIL SENTENCE.

BINGHAMPTON, N. Y., March 9.—William Kolfeinstein, 50 of Cincinnati today started on a 20 day self imposed sentence in the Binghampton jail. Sentenced for ten days for intoxication, Kolfeinstein found his nerves so improved by his rest cure that he begged for permission to stay a month.

IRISH REPUBLIC CAMPAIGN IN U. S.

(By The Associated Press)

WASHINGTON, March 9.—Two Republican members of the Dail Eireann, Austin Stack, member for Kerry and James J. O'Kelly, member for Louth, appointed by Eamonn DeValera to conduct a campaign through the United States on behalf of the Irish Republic, will sail Saturday from Southampton, according to a cablegram received from DeValera at the headquarters here of the American association for the recognition of the Irish Republic. The Irish delegates are expected to arrive in New York, March 15.

ELLIS EVOLUTION BILL IS DEFEATED

Frankfort, Ky., March 9.—The Kentucky house of representatives today defeated the Ellis Evolution bill. The vote was 42 to 41.

The vote came after five hours of debate in which opponents of the measure pleaded with the house not to "bring about return of intolerance," and the proponents charged that students were being turned into infidels and agnostics by the teaching of Kentucky.

CUTTING AFFRAY THIS MORNING.

During an altercation that occurred in North Sandy street just north of the Wabash railroad shortly after midnight last night, Homer Stone cut Rich Washington about the head with a knife used by chicken pickers. Both men are colored.

The police were called and Stone was arrested and lodged in the police station. Washington was attended by Dr. T. O. Hardy. He received a painful cut about the head and face but they are not serious.

WOMEN IN LEGAL BATTLE FOR ESTATE

NEW YORK, March 9.—Two women each in deep mourning and each leading a phalanx of witnesses, appeared before Surrogate Foley today in an action to determine which should be the legal widow of the late Frank Bortel, who at the time of his death last August 19, was head of the New York public service freight bureau. Mrs. Anna Bortel of New York sat at the counsel table. Behind her sat Mrs. Hattie Bortel of South Bend, Ind.

The latter claims she married Bortel in Kansas City and that her first intimation of a rival was when she came to New York to attend her husband's funeral and found his body in the possession of the other woman. Both then claimed the right to bury Bortel.

Relatives of the Indiana woman testified that Bortel had lived with her constantly up to his departure for New York four years ago, taking her to a cottage in Michigan for the summer and to a bungalow in Texas for the winters. When her husband came to New York to live he invariably returned for the holidays, often bringing his wife expensive gifts they said.

Griffith has issued statement DUBLIN, March 9.—Arthur Griffith in a statement issued tonight regarding the Limerick affair said:

"The situation is largely the outcome of incitement to discipline indulged in or connived at by some of Eamonn DeValera's supporters. This negation of the national authority can under no circumstances be acquiesced in."

"If Mr. DeValera will even now condemn the mutiny in the army the danger of the situation in Limerick will be considerably lessened."

SELF DEFENSE PLEA MADE IN PIRES CASE

Young Defendant Charged With Murder Declares He Shot James Gaddis After His Life Was Threatened—Story Contradicts Previous Statements—Confession is Admitted—All Evidence in and Arguments in Case Will Begin This Morning

Self-defense is the illy sustained plea in the case of Ellsworth Pires, now on trial in the circuit court before Judge Norman L. Jones, for the murder of James Gaddis, on October 6 last. Pires took the stand in his own defense shortly after 3 o'clock Thursday afternoon. The witness was calm in demeanor but contradicted himself several times upon essential points.

Pires claimed that he shot Gaddis after the latter had referred to his mother slightly, called him a vile name and threatened to shoot him. It was his story that Gaddis was advancing toward him when he (Pires) saw a gun leaning against the corn shock, seized it and fired. Later he testified that Gaddis was seated on the pulverizer at the time the fatal shot was fired and in answer to another question by the state's attorney declared that Gaddis was getting off the seat of the machine when the shot was fired.

At one point in the cross examination Pires said that he shot Gaddis and a moment later declared that he was so scared that he did not remember anything except the shot gun and pulling the trigger.

Contradictory Statements.

The defense had a difficult task in endeavoring to discount the testimony of Cy Ragan and George Hacker, who told of conversations had at the county jail with Pires, a few days after the tragedy in which Pires told of going to the field and asking his step-father for money which was refused. Pires told the witnesses that he became very angry, went to the house for the gun, returned to the field and shot Gaddis. This story is in direct contradiction to the statement of Pires on the witness stand that he found the gun behind the corn shock and that he shot in self defense, after Mr. Gaddis had threatened his life.

Some special interest attached to the fact that Sheriff and Mrs. Weatherford were permitted to testify to portions of conversation between Pires and his attorney, William N. Haigrove. State's Attorney Robinson insisted that such testimony is inadmissible, whether overheard by chance or intent. He insisted that a conversation between an attorney and his client, usually designated as confidential, was not an exception to this rule of the matter, and the testimony of the sheriff and his wife was admitted.

When court convened Thursday morning without further taking of evidence the confession of Pires given at the county jail October 7 to State's Attorney Robinson and Sheriff Weatherford was admitted as evidence. The state presented as witnesses Sheriff Weatherford, Mrs. Weatherford, Cy Ragan and George Hacker, the young men being residents of Concord who had a conversation at the jail with Pires which he admitted killing Gaddis.

State Rested at 10:30.

The state rested about 10:30 o'clock and the defense took the morning session was taken up with the introduction of character

Lloyd Smith's and had often stayed with him at his home. I went to meet a late train and so it was late when I went to the Ham home. Mrs. Ham was not there and I did not see her.

"I never had a conversation with Ellis Hacker in which I said I would kill Jim Gaddis if he applied a certain name to me."

The witness also denied the statement by Rolly Miller that he had once said he would play even with Gaddis and also the testimony of Claude Spoon that Pires had said Gaddis needed shooting.

Pires further made denial of the statement by Cy Ragan that Pires had told him that at the time of the shooting he went to the field and asked Gaddis for a dollar and that it was refused. The witness said that in the conversation with Gaddis in the field that morning for the car was not mentioned in any way, and further that he did not ask Mr. Gaddis for money.

Signed the Confession.

Pires said that he had signed the confession introduced in the evidence and that he had told the sheriff and state's attorney the things herein narrated. The witness said that George Hacker and Cy Ragan did visit him in jail and that Ragan talked to him about the confession and asked him various questions. He declared that Hacker asked no questions. He denied telling either of these men that Gaddis had whipped him or slapped him and that this incident led to the shooting.

The witness said he never had but one quarrel or fuss with his step-father and that was one day when there was some slight altercation between Mr. and Mrs. Gaddis and that Gaddis upbraided him for taking the part of his mother. He said that his relations with Gaddis were friendly after this incident and that he bore his step-father no ill will.

The witness' story was concluded with the sentence, "I shot Jim Gaddis because I was afraid of him."

Pires Cross-Examined.

State's Attorney Robinson took Pires thru a severe cross examination in which the witness contradicted himself in several important points. The witness at first said that he was about 10 feet from Gaddis when he fired the shot and that Gaddis was walking toward him. In the cross examination he said that Gaddis was on the seat of the pulverizer and again that he was "half way on and half way off."

The witness said that he entered the field at the north end and walked around to the point where he saw the team, that at first he did not notice Gaddis and then saw him come around from a corn shock and in the act of getting on the pulverizer. The witness narrated the alleged conversation between himself and Gaddis as given above, and then said that the conversation took place while Gaddis was on the pulverizer.

Pires Story of the Shooting.

The witness said that he saw the gun leaning against the corn shock, seized it and fired. "I don't remember when I shot," the witness said, "but I just picked up the gun and don't remember what happened. I don't know how many times I shot and I did not take out the shell. After the shooting I walked to a point about five feet from Gaddis and then went to the house and put the gun behind the door."

Under further questioning he said that he did shoot and kill Gaddis, but that he could not remember anything further about it. The witness said that Gaddis saw him in the act of firing and denied that he had told Ragan that he didn't know whether Gaddis saw him or not.

The witness said Gaddis always took a gun when he went to the field. He repeated the statement that he was badly frightened when Gaddis threatened him, but that he did not run. He said he walked to the east side of the shock and there he saw the gun. He did not remember pointing the gun and did not remember the shooting.

"Did you shoot and kill him?" said the state's attorney. Pires replied, "I guess. I killed him. Yes, I killed him."

Denied Story of Witness.

Further examination was devoted to an effort to learn about the relationship in the Gaddis home as to whether he had any trouble with the deceased. Pires denied the story of one witness that he (Pires) had said that he asked Gaddis for a dollar to buy gasoline and that Gaddis refused the money and slapped or struck him, and then that he had gone to the house, secured the gun and shot Gaddis.

Dr. Wolfe Testifies.

Dr. J. M. Wolfe testified that he had been called to the county jail by Proctor De Prates on the evening of October 7 to see Pires. The physician said that Pires seemed nervous and restless and in somewhat of a depressed state of mind. He said that he simply talked to Pires very briefly took his pulse and left some medicine.

Proctor De Prates on the witness stand said he was an uncle of the defendant and related the facts about his own trip to the Gaddis farm following the shooting. He said that Pires was in a work for him. Mr. Gaddis asked me and I told him no, that I was going to Springfield for my mother. We had no further conversation about the work for Mr. Hess, and I had no dispute with Mr. Gaddis that morning nor had I on previous days. Mr. Gaddis did not ask me on Wednesday, Oct. 5, to help him harrow, and I did not reply to him that I was going to Concord for some cigarettes.

"The night before the shooting I stayed at Mrs. Ham's home in Concord because I was a friend of

Ragan who had said he wanted to ask Pires about some boys.

Mrs. Gaddis Again on Stand.

Mrs. Ollie Gaddis was a witness for the defense and reiterated statements with reference to her trip to Springfield and the return. She said that after the trip to Springfield she saw her son for the first time on Thursday, October 6, when he met her on Caldwell street and told her of the death of Mr. Gaddis. She said that they drove down town to tell her brother Proctor De Prates, and immediately afterward went to the farm. She said that she started into the house and then intended to go to the field, but persons there would not permit her to do so.

Did Not See Body of Her Husband.

The witness said that she did not see the body of her deceased husband until Friday and that she saw her son again on the evening of the day of the county jail. The witness described her son as in a deplorable nervous condition when she saw him at the jail, which she thought was about 9 o'clock in the evening of October 7.

Mr. Haigrove Sought to Show

from the testimony of the witness that there was no serious trouble between Gaddis and her son, that they might have had little difficulties such as occur in the average family.

Denies Statement.

Under cross examination the witness told again of her visit to the jail and said that she had not called for Dr. Wolfe. She was asked if at the jail she had scolded Ellsworth for talking about the case and if Proctor De Prates had called him crazy, and the witness denied this statement.

She also denied the statement made by Mrs. Weatherford, wife of the sheriff, that so much noise was made by Mrs. Gaddis, De Prates and Mrs. Brooks on their visit to the jail that the sheriff sent word to them to desist.

The Confession.

When court convened Thursday morning, the confession of Pires was produced as evidence and was admitted by a ruling of Judge Jones. State's attorney Robinson read the confession, which was in language as follows:

"I, Charles Ellsworth Pires, aged 17, of Concord, in the county of Morgan, in the State of Illinois, of my own free will and accord, and without promise of reward or immunity, and after being warned and advised as to my rights and after being told that what I now subscribe will later be used against me, do hereby declare that on Thursday afternoon about 3:30 o'clock, October 5, 1921, I shot with a shot gun and killed James T. Gaddis, my step-father, in a field south of his residence on his farm about one mile east of Concord, Morgan county, Ill.

"(Charles Ellsworth Pires.)"

Sheriff on Stand.

Sheriff Weatherford then took the stand and reiterated the testimony given Wednesday afternoon when the jury was not present. He told of the interview with Pires and the state's attorney and said that Pires at the time that the confession was made, Mr. Friedman cross examined the sheriff and asked him if relatives or friends had been admitted to see Pires prior to the time that the confession was made. The sheriff replied that no person had asked to see the prisoner.

The witness again stated that Pires appeared calm during the interview but that when he called the sheriff back and said he was sorry he lied, that tears were running down his face. The sheriff declared that Pires showed no special nervousness at the time, although he was nervous and excited a few hours later when relatives came to see him.

State's Attorney Robinson asked the sheriff if he had overheard any conversation between Pires and his attorney, William N. Haigrove, at the jail. The sheriff said that by chance he overheard Pires say to his attorney: "I shot him. Do you want me to tell the truth?" Mrs. Weatherford also testified to overhearing portions of the conversation between Mr. Haigrove and Pires.

Which Pires stated that he had shot Gaddis, and asked if the attorney wanted him to tell the truth.

Conversations Admitted.

Strenuous objections were raised to the admissibility of this evidence of conversation overheard, but Judge Jones sustained the contention of State's Attorney Robinson that this evidence was proper. The ruling of the courts has been that whether a conversation is overheard by intent or by chance, that it can be introduced as testimony if presented thru credible witnesses.

Cy Ragan of Concord community was counted one of the important witnesses for the prosecution and told of a visit to the county jail Oct. 11, and a conversation had with Pires at that time. The witness said that Pires told him that he went to the field and asked Gaddis for money and when it was refused that Gaddis slapped him and that he became angry, went to the house, secured the gun and shot Gaddis. The witness asked Pires if Gaddis saw him approaching with the gun, and Pires said that he thought perhaps Gaddis did see him.

In cross examination the defense attempted to show that Ragan had taken undue interest in the case and evidently wished to help bring about a conviction. George Hacker testified that he went to the jail with Ragan and that he would not have gone had he any thought that the conversation would turn to the alleged murder. He however corroborated the testimony given by Ragan.

Character Witnesses.

At 10:30 o'clock the state rested and the defense began the presentation of the case. A number of character witnesses were introduced purposing to show

that Pires prior to the tragedy had a good reputation as a law-abiding, peaceable citizen. Most of the witnesses stated that any knowledge they had of Pires pertained to his time of residence in Jacksonville. However, others testified with reference to the general standing of Pires in the Concord neighborhood.

State's Attorney Robinson on cross examination laid stress upon the fact that the witnesses had never heard the reputation of Pires discussed until after the happening and pointed out that most of the witnesses were persons of mature years and not persons who would naturally come into contact with Pires.

The list of character witnesses included Mrs. R. L. Dye, Mrs. P. S. Woodman, Frank DePrates, Ben Burdick, R. W. Leggett, Miss Darley, Arthur Yeck, J. Cooper, George Johnson, Alfred Brookhouse, John G. Kershaw, Richard Smith and O. T. Ham.

Cy Ragan's Testimony.

The testimony of Cy Ragan has its direct bearing on the case because it contradicts Pires' latest version of the shooting. The detailed testimony of Ragan was as follows:

Cy Ragan, among principal morning witnesses for the state, testified:

Q. Where do you live?

A. One and one-half miles south-east of Concord.

Q. How long did you live in the vicinity?

A. Seven years.

Q. Do you know James T. Gaddis?

A. Yes.

Q. How long?

A. Ever since he moved there.

Q. You remember the occasion of his death?

A. Yes.

Q. Some time after his death were you in the cornfield?

A. Yes. Sunday after with others.

Q. Were you at the place where he had been lying?

A. Yes.

Q. Did you see anything?

A. The place where the body had been lying. Found a gun wed by one of the corn shocks, picked it up. There was no letters or figures on it; threw it away again.

Q. Do you know Ellsworth Pires?

A. Yes.

Q. How long?

A. Since he has lived there with his mother and Mr. Gaddis.

Q. Tell the jury whether or not you were at the jail.

A. Yes, I went to see him.

Q. How long ago was that?

A. It was about the 11th of October.

Q. Did you have some conversation?

A. Yes.

Q. Where was Ellsworth?

A. In the downstairs room.

Q. Was there anybody with you?

A. Yes.

Q. Did you go into the cell?

A. No.

Q. What did you go there to see him about?

A. I went there to see him about business of my own.

Q. What was said there?

A. I said, Ellsworth, it is too bad you got in bad. He said yes I went down to the corn field where he was working and asked him for some money. I don't know how much money it was but he said we got in a racket and he slapped me. I said, he didn't whip you hard, did he Ellsworth? And he said he slapped him. I got so mad I went and got the gun and shot him. I asked him if the team ran away and he said no they did not. He called the team by name and said one of the horses was blind, and called her by name. I asked him if Jim could see him when he was behind this shock. He said he might have seen him, but he didn't know whether he did or not. I asked him where he aimed and he said he didn't know. I shot him and when I saw what I had done I got scared.

Cross Examination:

Q. You came from Eastern Tennessee?

A. Yes.

Q. How did it happen that you went over there?

A. Was talking about it at my house with some men and got in a car and went over there. Was discussing what direction and where the man or boy was that did the shooting. Had never been over there to see the place where Gaddis had been shot until that afternoon.

Q. Did the sheriff tell you where the place was?

A. No.

Q. How many shocks of corn were there in the field?

A. I cannot say.

Q. You followed the tracks to the place where he had been lying?

A. Yes. There was blood still there on Sunday to be seen.

Q. The ground was soft and the blood was still to be seen. Hadn't it rained some time before Sunday?

A. Yes, but the blood was still to be seen.

Q. Before you went to the jail had you told anybody?

A. No.

Q. How did you come to go to the jail? To see the boy?

A. I went there of my own accord.

Q. Is it a fact that you were asked to go there by the officials of this county?

A. No.

Q. When you asked the sheriff for permission to talk to the boy but not about that why did you talk about it?

A. Because I was interested.

BUTTER MARKET SHOWS FIRMNESS.

CHICAGO, March 9.—Due to a firmer market in the east and a little better demand the tone of the butter market was firmer and stocks were cleaned up in better shape.

COUNTY SCHOOL FACTS GIVEN IN ADDRESS

Dr. J. G. Ames Made Report to
Kiwanis Club on Results of
Survey of Rural Schools.

Dr. J. G. Ames, who with the co-operation of H. H. Vasconcellos, county superintendent of schools, has recently finished a survey of county schools, made the principal address at the luncheon of the Kiwanis club Thursday at the Peacock Inn. "Morgan County Rural Schools" was Dr. Ames' theme and presented some very interesting facts.

President Farrell introduced Cole Y. Rowe as chairman of the program committee for the day. Members of the Club who were present when the charter was presented to the Springfield club Wednesday night, made a report of their trip. The group included A. T. Capps, Robert Mullenix, Hubert Little, W. H. Cocking, Percival Coover, Fletcher Hopper and W. S. Camp.

Joshua Vasconcellos was called upon for a story of his long sojourn in California. After a group of songs had been sung in an acceptable way by A. J. Hamilton of Harlow, Mont., Dr. Thomas Smith called attention to the concert to be given by the Illinois college band at the high school auditorium next Wednesday evening. Dr. Smith said that the band had been very generous in assisting various enterprises, and should be given public support at this concert.

Attendance prizes were given to Hugh Breeden and Robert Mullenix. The program committee is announced for the next two weeks: March 16, Rev. E. L. Fletcher, Milton Stout and Perry Primis; on March 23, W. A. Berryman, Walter Houston and Robert Mullenix.

The County Schools
Dr. Ames then made his address.

The speaker's subject was one in which all business men especially are interested. In fact, Dr. Ames stated that the schools touch at all times one-fifth of the population. Of 100 children who enter school 15 finish high school and only three graduate from a college. The primary or elementary schools of the county in attendance the children for eight years. There are at the present time in the rural schools of the county 2,041 students. The speaker dealt today with the one-room, one-teacher district school, of which there are 95 in Morgan county. Dr. Ames made it distinctly understood that he was not in the least criticizing any official. It was his idea to help by constructive criticism the one-half of the school children who attend the rural schools. Some of the statistics presented show that, per capita, 40 children attend city schools to 24 in the rural schools. That in the city the children are in school 164 days per year while in the rural schools they attend but 137 days per year. During the eight year course this difference each year means that the city student attends school two years more than the country child. Eighty percent of the city children attend school while in the rural districts but sixty-five percent attend.

Of the 95 rural schools in Morgan county there are 66 non-standard schools, 28 standard schools and one superior school. The speaker defined the difference between these classifications. He also presented a comparison of conditions in this county with eleven counties of the state. The eleven counties mentioned range from Cass county with 71 percent standard schools to Jackson county with 98 percent standard schools. Morgan county at the present time has 29 percent of her schools in the standard class.

Dr. Ames believes that the consolidated school plan is one which will bring greatest relief to communities at the present time unable to support a standard or superior school. In the consolidated school plan two or more districts, the average is four, unite in the erection of a modern school plant and equipment for the children of those districts. The problem of transportation enters into such an arrangement, of course, but in many communities it has raised the educational standard and is in many ways beneficial.

Religious Film of Power,

Sunday.

EBENEZER LADIES AID SOCIETY MEETS

The Ladies Aid society of Ebenezer church met Thursday afternoon at the home of Mrs. John Moss. There was a good attendance and the session was an interesting one although some change was made in the program on account of sickness among the members.

The meeting opened with a song, followed by the devotional exercises which were led by the president, Mrs. C. S. Black. A business session came later when various matters were given attention. A social hour followed, at which time the hostess served excellent refreshments.

The next meeting of the society will be held at the church on Thursday, April 13. At this time the hostesses will be Mrs. Black, Mrs. Kelly and Mrs. Henderson.

STATE TEACHERS MEETING WILL BE HELD

The South Central Illinois Teachers association will meet in annual convention in Springfield today. The work of the city schools is suspended for the day, and the same is true of the School for the Deaf and the School for the Blind, in order to make it possible for teachers to attend the sessions. Most of the delegates will leave on the morning Washburn train and remain until Saturday afternoon.

FUNERAL NOTICE

The funeral of the late Henry Stryker will be held at 2 o'clock this afternoon from the residence of Mr. and Mrs. V. T. Capps, 1018 West State street.

PROMINENT FARMER GREENE COUNTY DIES

White Hall, March 9.—Henry Pitt, a well known farmer of the Walkerville neighborhood, his home being two miles west of Walkerville, died Wednesday after an illness of some duration. His age was about 55 years. He had resided in the neighborhood more than 20 years, coming from Missouri, being a member of a family of nine brothers and sisters. He was married, but there are no children. Funeral arrangements pending word from his father.

RETURNS FROM SOUTHERN TRIP

W. C. Calhoun of Franklin has returned from an extended stay in the south for the benefit of his health and is feeling very much improved. Mr. Calhoun went from Jacksonville to Hot Springs, Ark., and later spent a number of weeks in Kentucky.

Mrs. Anna Ferguson, who fainted in the circuit court room yesterday and was removed ill, to her home on East College avenue, was reported as much improved last night. Miss Dora Moore, a trained nurse, aided Mrs. Ferguson at the court house.

MILWAUKEE MAN GOES TO ECUADOR

WASHINGTON, March 9.—The nomination of Gerhard A. Bading Milwaukee to be a minister to Ecuador was confirmed today by the senate.

Social Events

St. Patrick's Social at
Grace Church.

The Young Woman's Fellowship Mission Circle of Grace M. E. church enjoyed a St. Patrick's Day social last evening at the church. A program was given at the first of the evening including devotional services led by Miss Agnes Davis, the text book lesson, "Our Great National Race Problem" by Miss Leta Groves, and a reading by Miss Davis entitled, "Glimpses of China Town." A short business session followed in charge of Miss Groves the president. The social hour was delightfully spent with games and contests in keeping with St. Patrick's Day and the refreshments also carried out the green and white idea. The hostesses for the evening were Misses Wilma Williamson, Irene Groves and Gertrude Tompkins.

Entertained Card Club.

Mrs. M. R. Fitch was hostess to the members of her club yesterday afternoon at her home on West College street. The time was spent with cards and this was followed by the serving of dainty luncheon.

Hostess to Lutheran Ladies.

Mrs. Phillip Schultz, Jr., entertained the members of the Ladies' Aid Society of Salem Lutheran church yesterday afternoon at her home on East College Avenue. The afternoon hours were spent with sewing and the routine business of the society was transacted. Mrs. Phillip Schultz, Sr., the president, presided over the meeting. During the social hour at the close of the afternoon the hostess served refreshments.

"I Believe," Westminster, Sunday. Dr. Smith preaches on "Faith."

MISS BELLE MEHUS APPEARS IN RECITAL

Gave Last Faculty Recital at
Woman's College—Mrs. Forrest
Unable to Appear.

It was a source of great regret to Jacksonville music lovers that Mrs. Palmer Forrester was unable to sing last night, owing to indisposition, but they were amply repaid for their attendance at this last faculty recital, by the artistic playing of her colleague, Miss Belle Mehus. The pianist chose Beethoven's sonata Op. No. 3 to open the program. It was played with understanding of the classic style and in a way that held the interest from beginning to end.

The second group included numbers by Mozowsky and Cyril Scott. Mention must be made of the Valse Caprice by the English composer into which Miss Mehus infused an infectious vivaciousness.

It was of interest to hear a prelude by the sister of the pianist, Miss Alma Mehus who will be heard in concert at the Woman's College on March 16th.

Liszt's Hungarian Rhapsody No. 4 concluded last night's program. In this the freedom and ease of Miss Mehus' playing was enjoyed. The pianist added to the printed numbers three pieces by Schuman: Nachtstück, The Prophet Bird and Hunting Song, as well as an encore after the second group.

DEATHS

Baldwin.
Miss Ethel May Baldwin of 315 Lorton street died at Our Savior's hospital at 9:30 o'clock Thursday morning.

Decedent was the daughter of Charles Henry and Rhoda Turner Baldwin and was born in Hammond, Illinois, November, 21, 1892.

She is survived by her parents, and two brothers and one sister, Leslie Baldwin of this city; Mrs. Edith Summers of Brookfield, Mo., and Jesse Baldwin of this city.

Miss Baldwin was a member of the Baptist church and made many friends during her residence here. The remains were removed to the Gillham Funeral Home and prepared for burial. Funeral services will be held there at 2:30 o'clock Saturday afternoon in charge of the Rev. A. P. Howells. Interment will be in Diamond Grove cemetery.

Gause.
Joseph Gause, the infant son of Mr. and Mrs. Louis Gause of 2229 South East street died Thursday afternoon at 2 o'clock at the family home. The infant was born February 16. Besides the parents six sisters survive. They are: Clara, Frances, Helen, Laura, Mary and Jeanette.

The funeral will be held at the Church of Our Savior, Friday at 2 o'clock. Interment will be made in Calvary cemetery.

Hamous.

William Hamous died at his home, 457 Lorton street at 11:50 o'clock Wednesday night. He was born in Bowling Green, Mo., September 7, 1861.

Besides his mother he is survived by two sisters, Mary and Arlicia and one brother, Wilbert Hamous.

The remains were taken to the Gillham Funeral Home and prepared for burial. Funeral services will be held there at ten o'clock Saturday morning, with interment in Jacksonville cemetery.

FAVORITE LODGE CONFERRED RANK

Favorite Lodge No. 376, Knights of Pythias at their regular meeting last evening conferred the rank of Page on seven candidates and will hold a special meeting Saturday evening to confer the rank of Esquire.

Those receiving the rank of Page last night were C. A. Young, Richard V. Hyer, Gail Jackson, G. J. Orear, Murvin D. Ator, Dr. A. C. Bolle and David A. Smith.

John Cully of the Ashbury neighborhood were shopping in the city yesterday.

ings in her usual charming manner and the rest of the afternoon was devoted to a social hour.

The committee in charge of the meeting included Mrs. W. T. Richardson, Mrs. John Boddy, Mrs. Scott Holmes, Mrs. Fred Ranson and Mrs. Walter Goitra. The Jones' home was attractive with spring flowers and the delicious refreshments which were served carried out the color scheme of Green and White, the colors of the club.

Miss Walters Is Given Surprise.

A pleasant surprise was given Miss Laura Walters last evening at her home, the occasion being the young lady's thirteenth birthday. The occasion was planned by her mother, Mrs. Emma Walters, and her aunt, Mrs. Ida Kliner. Relatives and a few intimate friends were the guests. The evening was pleasantly spent with games and Victrola music. Very delightful refreshments were served which included a cake with thirteen candles. Among the guests were the Misses Phoebe and Grace Boddy of Markham and Messrs. Walter and John Boddy, also of Markham. Decorations were pink and white.

"I Believe," Westminster,

C. OF C. TO HELP COUNTY FAIR PROJECT

Farm Bureau Committee Met
With Directors Thursday Night
—Committee Will Meet Mr.
Chubbuck of Illinois Traction
System to Talk Over Rate Situation.

At the meeting of the directors of the Chamber of Commerce Thursday night representatives of the farm bureau were present to talk about the next Morgan county fair. After the matter had been discussed the directors voted for the appointment of a committee to co-operate with the farm bureau in the effort to secure the stock or membership that would be necessary in order to finance the betterments needed at the fair grounds.

The farm bureau committee included Charles S. Black, J. L. Henry and Lester Reed.

President R. Y. Rowe presided during the Thursday night session and nearly all the directors were present. E. H. Gray of the Railway and Light Co. was present for a further conference with reference to lower rates. There have been some unavoidable delays in securing a statement as to the reduction of rates that the company is willing to concede.

At the suggestion of Mr. Gray a committee will be named to accompany him to Springfield for a conference with General Manager Chubbuck on the whole question of rates. This conference is to be held within the next ten days.

At the suggestion of the farm committee a special committee will be named to co-operate in arranging for a clean up and paint up campaign. This project is a part of the general public health program.

The housing committee was asked to co-operate with the Social Service league in the endeavor to have the owners of dilapidated houses make such repairs during the coming spring and summer months as will put the houses into habitable and sanitary conditions. Some other matters of general interest were also discussed before adjournment.

ANNOUNCEMENT

We announce a special display of all the newest creations in spring millinery for Friday and Saturday. Everyone cordially invited.

JACKSONVILLE, ILLINOIS

FRIDAY MORNING, MARCH 10, 1922

SECTION TWO

UNION MEN WILL HEAR DR. WARD

Accept Invitation from Dr. Harker
to Attend Lecture Saturday
Night—Is Especially Friendly
to Union Labor.

At its regular meeting held in
Labor Temple Thursday evening
the Trades and Labor assembly in
benefit of the various unions of
the city accepted an invitation to
attend the lecture to be given at
Illinois Woman's College Satur-

day, evening by Dr. Harry F.
Ward.

Dr. Ward is a noted lecturer on
labor problems and President
Harker thru a letter to the Trades
and Labor assembly extended an
invitation to the union people of
the city to hear the lecture.

The invitation was accepted by
the assembly by a unanimous vote.
As it is such a short time before
the lecture the assembly takes this
method of getting the matter be-
fore the various unions and hopes
there will be a large attendance.

The invitation of Dr. Harker fol-
lows:

March 9, 1922.
Mr. Abe Wood, Secretary
Trades and Labor Assembly,
Jacksonville, Illinois.
My Dear Mr. Wood:

Dr. Harry F. Ward, who is pro-
fessor of Social Service in Boston
University and a very noted lec-
turer on labor problems, is to be
in Jacksonville on Saturday and
will make an address at the Wo-
man's College chapel Saturday
night at eight o'clock.

Dr. Ward is noted as being es-
pecially friendly to union labor,
and I am anxious that the union
men of Jacksonville should hear
him. I am sure that they would
be all greatly interested and
greatly pleased.

I am therefore addressing you
as the secretary of the Trades and
Labor Assembly and asking that
you cordially invite in my name
all the members of the several un-
ions of Jacksonville to be present
at Dr. Ward's lecture on Saturday
night. The lecture is entirely
free and I am very anxious espe-
cially that all Jacksonville union
men should hear it and know of
Dr. Ward's helpful attitude to-
wards labor thru the country.

Very sincerely yours,
Joseph R. Harker.

MANY SUBJECTS TO BE DISCUSSED

Gas, Electric and Railway Men
Will Meet in Chicago March
15 and 16.

CHICAGO, Ill.—Subjects rang-
ing from the development of the
one-man street car to the possi-
ble use of Illinois bituminous
coal for gas making will be dis-
cussed at the joint convention
of the Illinois Electric association,
the Illinois Gas association and
the Illinois Electric railways as-
sociation here Wednesday and
Thursday, March 15 and 16.

The program for the gathering
shows that virtually every phase
of activity connected with the
public utilities will be touched on
by speakers, many of whom are
from other states.

W. A. Dunkey, gas engineer of
the United States Bureau of
Mines, is scheduled to tell the
gas section of experiments being
made in the use of soft coal from
this state in gas making, a sub-
ject in which considerable inter-
est is being shown.

Advertising will come in for
its share of attention with Chas.
W. Peters of New York, secretary
of the advertising section of the
American Gas association on the
Wednesday afternoon session of
the gas section to outline plans
for advertising the gas industry.
Advertising problems of the elec-
tric railways will be discussed by
J. J. Moran of the Chicago, North
Shore and Milwaukee railroad,
and Luke Grant of the Chicago
Elevated Railroads.

G. C. Neff, chairman of the
rail lines committee of the Na-
tional Electric light association,
will tell the problems connected
with rural electric service at the
Thursday afternoon meeting of
the electric section, which will
be followed by a discussion of the
Illinois rural lines situation.

"Traffic relations between the
steam and electric railways" will
be discussed by Richard Breck-
enridge, of the Aurora Electric
and Chicago railroad, W. H.
Wylie, of the Illinois Traction
System, and C. F. Thompson, of
the Chicago, North Shore and
Milwaukee railway, at the open-
ing session of the electric rail-
ways section.

Wednesday afternoon while
"The modern railway franchise"
will be the subject of an address
by Attorney Ben P. Alschuler of
Aurora.

Utilization of the bus lines as
aids to electric railways will be
outlined by W. C. Sparks of the
Rockford Interurban Railway
company, and W. G. Brooks of
the Westinghouse Electric and
Manufacturing Company Thurs-
day.

Gratton Joyce was a local busi-
ness caller yesterday from south
of the city.

Gene Hart of Sinclair paid
Jacksonville a business call
Thursday.

Condensed Telegraphic News

(By The Associated Press.)

DECATUR, Ill., March 9.—
James E. Birchfield, a wealthy
farmer living 10 miles east of
Decatur, shot his wife thru the
heart and then himself thru the
head about noon today. Both
were found dead by a brother who
reached the house at noon, Birch-
field having sent his sons after
the brother.

It is said there had been much
domestic trouble and that Mrs.
Birchfield had her trunk packed
to leave Thursday morning. Both
had children by former marriages.

WASHINGTON, March 9.—
President Harding asked congress
today to increase in the navy bill
for next year a supplemental ap-
propriation of \$2,450,000 for use
in counteracting damage caused
by teredo, a wood gnawing worm
at Mare Island navy yard, Cali-
fornia.

GALESBURG, Ill., March 9.—
John Palm, aged 41 of this city,
was drowned when he fell into a
10,000 gallon vat of buttermilk at
a local milk plant this morning.
Palm was leaning over the top of
the vat to knock the wooden forms
from concrete recently built on
the vat to make it higher when he
fell in either losing his balance or
by being overcome by carbon diox-
ide fumes from the buttermilk.

NEW YORK, March 9.—Samuel
Gompers, president of the Ameri-
can Federation of Labor, will
make a 3-day speaking tour of the
cotton mill cities of New England,
where strikes are in progress. It
was announced today by Thomas
F. McMahon, president of the
United Textile Workers of Ameri-
ca. The tour will begin next Sat-
urday.

DAVENPORT, Ia., March 9.—
The Bettendorf Steel Car Co. is
forecasting a return to prosperi-
ty. President J. W. Bettendorf
today announced the securing of
a million and a half dollar con-
tract from The Union Pacific and
Southern Pacific railroads. It is
the third contract amounting to a
million dollars or more secured
by the company within the last 60
days.

BLOOMINGTON, Ill., March 9.—
Oscar Mandel, aged 65, a prom-
inent merchant of Bloomington,
died at four o'clock this morning
anaplexy. He came to Chicago
from Germany when 18, being
first employed by his cousins,
Mandel Brothers, Chicago. He
was the father-in-law of Milton
Cohn, of Alfred Decker Cohn Co.,
of Chicago. Mr. Mandel was
known for his philanthropy.

PASADENA, Calif., March 9.—
Mrs. Stewart Daggett, author of a
number of novels, died at her home
here today after a brief illness.
She was born at Morristown,
Ohio, in 1856.

PARIS, March 9.—Citizens of
France upon reaching the age of
25 hereafter may marry without
obtaining consent of their par-
ents. Such is the bill which has
just been passed by the French
chamber. Heretofore Frenchmen
and women under 30 could not
wed without the authorization of
their parents. Elopings are unknown
in France.

WILLIMANTIC, Conn., March
9.—A "flivver" converted into a
still has been discovered in the
barn of Frank Nivakas, farmer, in
a raid by federal prohibition
agents. The gas tank, radiator,
feed pipe and hood were features
of the apparatus. Sufficient liquor
was found to order Nivakas' ap-
pearance in court today.

ANCHORAGE, Alaska, March
9.—Miss Mary Conley, a trained
nurse, formerly of Anaconda,
Mont., is travelling 1,700 miles,
700 miles of the distance by dog
team, on her way from Akiak,
in the Kuskokwim, country to
Juneau, where in April she will
wed Carl Thiele, acting governor
of Alaska. Mr. Thiele is executive
in the absence of Governor Bone,
who is in Washington.

DIXON, Ill., March 9.—Learn-
ing from Associated Press dis-
patches of the sending of market
reports by radio from KYW sta-
tion in Chicago, operators of a
wireless outfit owned by Ameri-
can Legion Post Number 538 At
Ohio, Illinois, south of here, have
tuned their set to receive waves
from KYW station and are now re-
ceiving all reports from that sta-
tion in addition to Denver, De-
troit, Pittsburgh and other sta-
tions.

CHICAGO, March 9.—A mong-
rel street dog with a broken leg
occupied a cot at the American
hospital here today. A chauffeur
and a policeman picked him up in
the street last night, and as the
humane associations were closed
for the night, the hospital agreed
to the policeman's plea to take the
dog. It is believed to be the first
time in the history of Chicago
hospitals that a dog occupied a cot
in one of them.

CHICAGO, March 9.—The Illi-
nois League of Women Voters to-
day announced a campaign intend-
ed to place a branch of the league
in every county in the state. Miss
Edith Lockwood, executive secre-
tary, will visit every county to do
organization work.

ST. LOUIS, Mo., March 9.—
The funeral of Sister Philomena,
for 58 years a Catholic nun in this
and other cities, was to be held
heretoday. The death of the sis-
ter, who was 86 years old, oc-
curred at a local convent, where
she had spent the last 37 years of
her life.

PUBLIC SCHOOLS TO BE CLOSED TODAY

Teachers Will Attend State Teach-
ers' Meeting in Springfield To-
day—Pupils from David Prince
School Also Go.

The public schools will be
closed today. The teachers thru-
out the system will attend the
South Central Division meeting of
the State Teachers' Association
to be held in Springfield today
and tomorrow.

An unusual instructive pro-
gram has been planned and with
it has been combined most excel-
lent entertainment features such
as music by the Imperial Quartet
of Chicago on Friday night and
Saturday morning and the general
lecture by Hon. Quinn O'Brien of
Chicago.

The Wabash railroad is putting
on an extra coach to accommo-
date the group from this commu-
nity.

This division was organized
three years ago to provide an
opportunity for professional insti-
tutes in this section of the state.
The response has been very hearty
and about 1800 teachers have been
enrolled each year. A special one
and one-half fare rate has been
granted by all the railroads. Per-
sons attending this meeting will
pay the regular fare going, secur-
ing a certificate and turning the
same in for validation when re-
turning the convention. This certi-
cate when presented for the return
trip ticket entitles the holder to
one-half fare.

One of the most interesting fea-
tures of the meeting will be the
class room demonstration to be
given by members of the eighth
grade mathematics class of the
David Prince school. Miss Mabel
Withee is instructor and will
take sixteen students over to
Springfield today to give an illus-
tration of group method work in
mathematics as used in the local
school. The demonstration will
be given this afternoon at 3 o'clock
and this will be followed by a pa-
per by Miss Withee explaining the
methods which she uses and has
found so successful in math-
ematics work in the junior high
school. The following students
will take part in the demon-
stration:

Donald Casey, Maxwell Thomp-
son, Leroy Barnhart, William Wil-
son, Roy Conkle, William Vick-
ery, Russell Todd, Elizabeth
Acorn, Louise Anthony, Marguer-
ite Forrest, Dorothy Fiedler, Eliza-
beth Wainwright, Marietta Gruber,
Glendora Cannon, Ruth Swan,
Izetta Kumble.

REGULAR MONTHLY
CLINIC THURSDAY
The regular monthly clinic of

the Jacksonville Clinical Associa-
tion was held yesterday and a num-
ber of interesting surgical and
mental cases were treated. The
morning session was held at Pas-
sant hospital and in the after-
noon the clinic was held at the
Jacksonville State hospital.

The doctors were the guests of
Dr. Carl E. Black at luncheon yester-
day noon at the Elks club. The
regular meeting of the Morgan
County Medical Society was held
last evening after a dinner at the
Peacock Inn. Dr. F. A. Norris

delivered the paper before the
county association.

Among out of town physicians
who attended the clinic yesterday
were Dr. J. M. Swope of Arenza-
ville, Dr. J. W. Wels of Manches-
ter, a Dr. R. R. Jones of Wood-
son.

Opportunity Circle of
Grace church will hold a
market of cooked food Satur-
day morning in the show win-
dow of C. N. Priest's Garage.

LEON TROTZKY HAS TACKLED BIG JOB

Launches Campaign to Make Russia Clean—Is Himself a Neat Dresser.

MOSCOW.—(By the A. P.)—Leon Trotzky, the Soviet War Minister, has launched a campaign to make Russia clean. He intends to do this through the Red Army.

It is his chief and most cherished desire to convert 100,000,000 people to his slogan: "Cleanliness is health and with health the world may be moved."

Trotzky has banished grease and dirt, beards and long hair, shabby and ill-fitting clothes from the Red Army and now he wants to pass on the benefits of cleanliness to the entire population.

Personally he gives the Russians a splendid example.

Trotzky's own clothes are a model of simplicity and neatness. He wears no insignia to show he is the commander-in-chief of the army. His jacket is of gray green army cloth, with a military air given by a closely buttoned, roll-down collar and military pockets. His trousers are tucked into a pair of lace-up boots. A square, medium-sized man, his large head and broad forehead would attract attention of the observing in many places but his clean appearance is notable in Russia where living conditions have long conducted to neglect of one's appearance.

Trotzky claims that despite great strain of work he has been under for years, his health has improved. He certainly has improved in control of his nerves. He no longer gets excited. Also he has become a first rate public speaker.

Bolshevik leaders have to do their work at night, sleep when they can and make stump speeches to a vast number of people who cannot read and who must be taught only by speeches. Instead of breaking down Trotzky often speaks twice a day. He goes through setting-up exercises twice a day, walks or rides in an open automobile when he has the opportunity, gets regular sleep and never worries.

Trotzky is very keen at picking up points in conversation, to convert arguments advanced but so quick as to be almost quickish. "He argues like a country lawyer," was the opinion expressed by some European journalists recently, after interviewing him.

GRAPEFRUIT MAY BE RIPENED IN STORAGE.

WASHINGTON.—The grapefruit appearing on the American breakfast table may in the future be one coaxed to ripeness while reposing in a frigid temperature of some refrigerating plant. Department of Agriculture experts announced today after completion of a series of experiments begun in 1917 that contrary to the prevalent opinion, citrus fruit will ripen off the tree and, like pears and apples, will develop a superior eating quality after a period of one to three months in cold storage. The fruit, however, must be suitably "cured" before being placed in cold storage, it was determined. This curing process involving keeping the fruit in a temperature of about seventy degrees for a period of two to three weeks. It is then transferred to a temperature of 32 degrees for a longer period.

The government experts found, it was said, that while the sugar content of the fruit remained about the same, the acid content decreased markedly during the storage, and apparently the bitterness was broken down, thus enhancing the palatableness of the fruit. The process was also said to eliminate the tendency of the fruit to "pit" or form the sunken spots, which sometimes appear on the skin and impair the fruit's market value.

SALE OF REAL ESTATE TO PAY DEBTS

State of Illinois, ss.

Morgan County, ss.

In the County Court thereof, March Term, 1922, In Probate. In the Matter of the Estate of Bernard Gause, Deceased, Pearl Gause and F. E. Farrell, as Executors of the Last Will of Bernard Gause vs. Pearl Gause, et al.

Petition to Sell Real Estate to Pay Debts.

Pursuant to a decretal order made and entered in said Court in said cause on the Sixth Day of March, 1922, the said Executors will on the 15th day of April, 1922, at the hour of Two o'clock p. m., at the South Door of the Court House in Jacksonville in said County and State, sell at public auction to the highest and best bidder, for cash in hand, the right, title, interest and estate, which the said Bernard Gause, deceased, had at the time of his death, in and to:

Sixty (60) feet off of the North end of Lots One Hundred Forty-Eight (148), One Hundred and Forty Nine (149) and One Hundred (150), in the Original Plat, of the Town (now City) of Jacksonville, except three (3) feet off of the East end thereof added to the street.

Part of Lots One Hundred and Forty-Eight (148) and One Hundred Forty-Nine (149) in the Original Plat of the Town, (now City), of Jacksonville, to-wit:

Beginning Three (3) feet West and Ninety-Two (92) feet three (3) inches north of the South east Corner of said Lot 148 and running thence North—253 feet, thence West 573 feet, thence South 283 feet and thence East 573 feet to the place of beginning, all of the said real estate situated in Morgan County, Illinois, known as 219-211-223-225 South Sandy street, subject to the lien of taxes, and said sale subject to the approval of said Court.

At said sale the real estate will be offered for sale as follows:

1st.—Each Store Room with its respective lot will be offered separately.

2nd.—The Three Brick Store Rooms with their respective lots will be offered together.

3rd.—The entire real estate will be offered as a whole. Whichever way of selling brings the larger aggregate selling price will be declared a sale.

Abstracts of title may be had for examination at the Farrell State Bank, Dated March 8th, 1922.

PEARL GAUSE, and FELIX E. FARRELL, Executors of the last Will of Bernard Gause, Deceased, J. Marshall Miller, Attorney,

MARRIAGE OF WELL KNOWN CHAPIN COUPLE

Miss Mabel Unken Becomes Bride of Earl Werries in Pretty Home Ceremony.

The marriage of Miss Mabel Unken and Earl Werries, both of Chapin precinct, occurred at 7:30 o'clock Wednesday evening at the home of the bride's parents, Mr. and Mrs. Albert Unken, two miles southeast of Chapin. The ceremony was performed by Rev. John Detens.

The bride and groom were attended by Miss Amy Unken, sister of the bride, and Harry Werries, brother of the groom.

Mrs. Werries is the third daughter of Mr. and Mrs. Albert Unken, and her entire life has been spent at home with her parents. She is a young woman of charming personality and is very popular among the younger people of her home community. The simplicity of her wedding was in accord with her ideals.

Mr. Werries is the elder son of Mr. and Mrs. J. H. Werries and has spent his life in the Chapin community. For a time he was associated with his father in farming, but in recent years he has been farming for himself. He is a young man of fine character and worthy of the bride he has won. Mr. and Mrs. Werries will make their home on the farm of the bride's parents, which is all in readiness for their occupancy. Their many friends unite in wishing them a married life of much happiness.

SPRING WHEAT CAN BE RAISED HERE

University of Illinois Head Says Spring Wheat Can Safely be Included in Farming Systems in This State.

URBANA, Ill., March 8.—Because spring wheat requires a cool climate the thirty-five counties in northern Illinois can, roughly speaking, safely include spring wheat in their systems of farming, according to Dr. W. L. Burlison, head of the Agronomy department of the university of Illinois.

Counties north of a line drawn between the southern boundaries of Kankakee and Mercer counties, may be included in the primary spring wheat belt of Illinois. Counties north of a line drawn between the southern boundaries of Edgar and Pike counties and south of the line mentioned above have produced very satisfactory spring wheat for the last two years, Dr. Burlison states.

"The cultural requirements of spring wheat are very much the same as for winter wheat," he continued. "The preparation of fall plowed land is the same for spring wheat as it would be for any other spring-sown small grain. If spring wheat is to be seeded on stalk land, it would be best to disk the land thoroughly and seed them, rather than to delay seeding for very long in order to plow."

"For some time the university of Illinois has been making a study on the time of planting spring wheat. The first seeding was made about March 6 and every 10 days thereafter until about the 10th of April. The average yield of Marquis for a period of years was 29 bushels for the first seeding, March 6, and 22 bushels for the last seeding of April 10. The yield of the wheat was best for the first seeding with 59 pounds per bushel to 54 pounds per bushel for the last seeding. The seed found in the last seeding was seven times as great as for the first seeding."

Variety trials have been conducted at De Kalb, in northern Illinois, and at Urbana, in central Illinois. As a two year average, Marquis has yielded 37 bushels, blue stem 29 bushels, durum 20 bushels and Illinois No. 1, 29 bushels at De Kalb. For the northern section of the state Marquis has a very satisfactory variety. This is a smooth wheat. At Urbana as an average of 4 years Illinois No. 1 has yielded 29 bushels, durum 24 bushels, Marquis 24 bushels, red fife 21 bushels.

"One point should be emphasized particularly in the production of spring wheat, namely seed must be sown as early as possible after all danger of severe freezing weather is over."

WHITE HALL CITY COUNCIL IN SESSION

Important Business Matters Discussed at Recent Session of City Fathers.

White Hall, March 9.—The March session of the city council was one of great importance in the character of the business transacted from the opening to the close of the extended session. The matter of a municipal electric plant came up for definite action in getting the entire proposition in shape for the regular spring election, and bids were ordered for road oil and for an extension of water main.

At the outset of the regular order of business was suspended to receive a delegation of five women representing the W. C. T. U. Mrs. Wm. Tanner stated that booze was being sold in at least four localities in town by both men and women. Mrs. Jule Hubbard stated that no proper effort is being made to prevent boys under 16 years of age from frequenting pool halls, and that school boys from the grades were seen in these places during school hours. The mayor promised the women that the laws and ordinances in these respects would be enforced, and instructed the marshal to investigate the charges at once.

This is the first meeting presided over by Mayor Roodhouse since sickness and death visited his home, and he spoke in heartfelt gratitude for the tributes from the members of the council and the citizens in general as to the worthiness and high esteem for the memory of his wife on the occasion of her funeral. All members were present.

Claim aggregating \$1,000 were allowed; all claims being allowed except those of the fire company for the fire calls to Hillview and Burrow which were laid aside for the present. The Mayor recommended that under proper conditions and regulations the city fire department be allowed to respond to calls from outside, but positively forbids the removal of the 500 feet of hose for city emergency use. The recommendations were unanimously approved.

Bids will be received until March 21, for 100,000 to 200,000 gallons of road oil with an asphalt basis of 50 per cent to 60 percent, f. o. b. White Hall.

Alderman Waltrip called up the matter of the municipal electric plant. The discussion brought out that the city now has only \$1,500 bonded indebtedness with an assessed valuation of approximately \$1,500,000. This small bonded indebtedness will be wiped out in another year. The bond limit is 5 percent of the assessed valuation, which gives a maximum of \$75,000 which would be more than needed to provide a municipal electric plant for the needs of White Hall. The amount paid out by the city annually for street lighting alone is in excess of four thousand dollars, an item that alone would take care of a bond issue far greater than needed to provide for a city electric plant. It was decided to employ an engineer to submit estimates of costs on March 21st next, and the whole matter will be submitted to a vote at the next regular city session on April 18th.

Water Commissioner Fry was authorized to purchase a stock of water meters. The mayor recommended that water mains be extended with surplus in the water account, especially to the septic tank, which is absolutely necessary. The street and alley committee will receive bids for one carload of four-inch cast iron pipe until March 21. The purchase of a brick blacksmith shop on the south side of Franklin street for a tool house was authorized at \$1,539. The site is 120x240 feet.

W. M. Caffery was appointed city marshal in the place of T. E. Conlee, who is making the race for the democratic nomination for sheriff. The council adjourned until 7:30 p. m. March 21st, when another highly important session will be held.

LOTS OF WORK AND NO PLAY

Chicago.—(By the A. P.)—Lots of work and no play is the life of the present day artist's model, says a bulletin issued by the Art Institute here. The glamour that fiction throws about a model is not duplicated in real life, according to the Institute's bulletin, which said:

"To be a good model, one need not of necessity be beautiful. For students who are learning anatomy or structure of the face, the bones should be prominent and no willowy curves are desired. For advanced modelling classes beautiful curves are sought, and the head and face should have a fine contour."

"The impression that models are of the frivolous type is not always well founded. Frivolity is not consistent with so exacting a profession. And it is hard work, too. Even the pleasure of seeing one's face or figure on canvas cannot remove the ache from one's joints."

Fasting usually brings anywhere up to \$1 an hour, but most models cannot pose for more than five or six hours a day and only half of that time can be spent in a standing position the bulletin adds.

Mr. and Mrs. Ivan Cox of the Shiloh neighborhood were listed among the visitors to Jacksonville yesterday.

Mr. and Mrs. E. G. McFadden of Grace Chapel were visitors to the city yesterday.

Owen Crum journeyed from Liberty to Jacksonville Thursday.

NEWSPAPERMEN SEE NEW DRESSES

Paris Makers Invite Them to View New Styles—Radical Departure From Old Customs.

PARIS, March 8.—That little world of its own in Paris which has to do exclusively with the creation of women's clothing has been thrown into a high state of excitement through the recent "radical" departure of one of its leading members in inviting newspapermen to view his spring and summer dresses.

In dress so the dressmaker smashed a tradition as old as the Paris dressmaking business itself which has always boasted of the fact that it needed no newspaper to assist it to greatness.

The representatives of the press have been rigorously barred heretofore and many of the big establishments whose names are well known to American women have gone so far as to demand a special passport with a picture from all those who entered their establishments. Those few special fashion writers who have obtained admission were made to believe they had been highly honored.

Jean Patou, a young Frenchman with American ideas, decided recently that his associates were wrong. He, therefore, arranged a special party, invited all the best known newspapermen in Paris—foreign and French—and revealed to them the secrets of his art. Anyone was free to carry away a careful description of the gowns displayed.

Patou's move has caused great discussion in the Paris fashion world and there is much speculation as to whether it will force other dressmakers to open their doors to the press. Any well-known houses which have felt the pinch of recent hard times, are wondering whether they are wrong.

WET AND DRY SPOTS NEAR TOGETHER

Honolulu, T. H.—By the A. P.—The wettest and driest spots—atmospherically speaking—in the territory of Hawaii during 1921 were only ten miles apart, on the island of Maui, according to the annual report of the United States weather bureau, made public today. The heaviest rainfall was at Pau Kukul, Maui, with 402 inches during the year. While Olowalu, ten miles away had the least, 7.54 inches.

"Christian Science—God's Law"

Full Report of Lecture

By
William D. Kilpatrick

On
"Christian Science—God's Law"

You have been invited here this evening to listen to a lecture upon God; to hear what Christian Science has to offer upon God and His Christ. Many of you are familiar with the teachings of Christian Science, some of you have a slight knowledge of what Christian Science is, while a few of you possibly, will tonight gain your first impressions of what Christian Science brings to the world. In any event, you are all welcome and we shall strive, in the brief period at our disposal, to present our subject in the simplest possible manner so that even "the who runs may read."

Men are beginning to think for themselves as they have never done before, the great impetus of freedom and democracy which has of late come to the world, has, in large measure, freed thought from its fetters of conventionality and formalism and has rendered it remarkably receptive of Truth. Men are rapidly learning not to depend on the dictum of others for their insight into heaven nor are they longer content to sustain themselves on the broken reed of materialism in their search for bodily health. That dogmatism, scholasticism and religious creeds, together with drugs and physics, are being weighed in the balance and found wanting has ample proof in the whole-hearted, eager and enthusiastic manner in which mankind is gradually and certainly embracing the saving graces of this new-old religion of Christian Science.

Christian Science comes to you, my friends, with a glorious promise and with a revelation for the home that is in it. It says to those who are sick, those who are sorrowful, those who are fearful and those who are poverty stricken, in the words of Jesus, "Come unto me, all ye that labour and are heavy laden, and I will give you rest. Take my yoke upon you, and learn of me; for I am meek and lowly in heart; and ye shall find rest unto your souls. For my yoke is easy, and my burden is light." Christian Science offers you a cure, a release from sorrow and fear, it has a panacea for all your ills and your misfortunes and it comes with a heart full of love and compassion, with healing in its wings and with a world of joy and happiness for all. In Christian Science the sack-cloth and ashes are exchanged for the oil of gladness. As foretold in the vision of St. John, "And God shall wipe away all tears from their eyes; and there shall be no more death, neither sorrow, nor crying, neither shall there be any more pain; for the former things are passed away."

The pathway of Christian Science has not been an easy one to traverse. The movement has not reached its present position in the world over a pathway strewn with roses. Its progress, from its very inception, has been beset by tremendous odds, both from within and without. It has not been without its judges. Other religious denominations have not been slow to hurl their stones of condemnation and spat upon; for the same reason that he was sentenced to death on the cross and for the same reason that he suffered and endured the agonies of Calvary, because—simply because—he healed the sick and brought comfort to the sinning and sorrowful; because he healed the sick through prayer and by spiritual means alone, to the complete discredit of all material so-called methods of healing; simply because he taught a complete salvation from sin without the fettering and unavailing requirements of scholastic theology and without bowing before the formalism of the creeds and ritualistic dogmas of priest and rabbi. Had Jesus never healed the sick spiritually; had he never taught that it is sinful to resort to material means for healing; had he never comforted and reclaimed the sinner without the show of hollow cant and more than worthless ceremony, the world never would have witnessed the awful tragedy on Calvary and there would be no Christian religion today—no scientific religion.

Likewise, had Christian Science been unable to accomplish these same healing and regenerating works of the Master in the same manner and through the same means that he did, in strict obedience to his commands, his teachings and his precepts, it never would have been the object of the misrepresentation, persecution and intolerance to which it has been so often subjected. It was inevitable that Jesus should have suffered the agonies of

Cavalry and it is inevitable that his religion should allow in its footsteps and obeying his command to go into all the world, preach the gospel, heal the sick and raise the dead shall bear his cross of ridicule and condemnation, shall drink his cup of bitterness and humiliation, until it proves to an unwilling and skeptical world its words by its works.

Christian Science has come to humanity to restore to it the lost art of healing which the great Master-Christ, Jesus the Christ, declared should exemplify the true standing of those truths of existence which he gave to the world some twenty centuries. One can hardly read the New Testament without a firm conviction that much of the victory given it by the life and works of Jesus has been lost or eliminated throughout the intervening centuries. Jesus taught that it was his understanding of God and God's government, of His universe which enabled him to do the works of healing and regeneration he so freely accomplished throughout His brief ministry and of which he said in no uncertain terms, "The works that I do shall be also in you, that ye also shall do them."

Jesus' mission on earth was to establish with men that understanding of God which would enable them to do the very works that he did. He said, "Ye shall know them by their fruits," and in explanation of this saying you will recall that near the close of his earthly ministry, to emphasize the correct understanding of God, he merely extended his hands and feet, he cursed the barren fig tree, the fig tree which, to all outward appearances, was a worthy example of its species, but which, on intimate acquaintance, proved to be entirely devoid of fruit but profuse in beautiful and promising foliage. Jesus taught that his works of healing and regeneration were not of a miraculous nature but were indissolubly connected with the correct understanding of God which he came to give us. Jesus came to establish the kingdom of heaven on earth for all mankind throughout all time—for you and for me, right here and now. In that mighty prayer, given us in his Sermon on the Mount, we find these words: "Thy kingdom come. Thy will be done in earth as it is in heaven." This which enabled the disciples of Jesus' time to heal the sick, cast out demons and even raise the dead was intended for you and for me just as much as for the disciples, otherwise the marvelous works and teachings of Jesus are of no avail as our Savior. There is nothing in the Bible and in the teachings and works of the Master to excuse us in the least for not healing the sick by prayer and spiritual means in accord with the commands of Jesus. In the sixteenth chapter of St. Mark's Gospel Jesus gave this explicit command to all mankind through the medium of his disciples: "These signs shall follow them that believe in my name shall they cast out devils they shall speak with new tongues; they shall take up serpents; and they shall drink deadly things; they shall be hurt by them; they shall lay hands on the sick and they shall recover." And it is not a glorious thing to know that at last we have been awakened, through Christian Science, to the recognition of the fact that that command was for you and for me, and that we have been given, through Christian Science, that understanding of Jesus' teachings which makes the fulfillment of this command a present and immediate possibility, and that you and I may know enough right here and now to assist in establishing the kingdom of heaven on earth.

Spiritual vs. Material Law
If you will carefully follow the life of Jesus as given in the New Testament and consider his words in connection with what he taught you will discover that what he did was merely to establish as a demonstrable fact what he taught, and that what he taught and did were said and done in accord with, and in explanation of, some immutable ever-present, universal law. You will see, in other words, that his words and works were looking to the establishment of a divine omnipotent, spiritual law which will eventually rule all mankind to the complete extinction of any so-called opposed law and effects. The world had always been accounting law to be that which had to do with the material universe, and had looked and still does look upon law to be that which has to do with materiality or matter. In fact, if you will consider for a moment, you will agree that we have never associated law with anything but with matter. All material or physical manifestations of whatever name or nature—material phenomena—claim to be the product or outcome of some material law. Everything cognized in the experience of mortals from the cradle to the grave is claimed to exist or to transpire because of a law of matter, and if we will carefully analyze our concept of this entire material existence we will find that we have attributed all material conditions, phenomena and manifestations to God. Have we not? Have we not always looked upon everything of which we have been cognizant through the medium of the senses of see-

ing, hearing, feeling, tasting and smelling to be God-ordained and manifestations of a divine cause of which we have had no particular knowledge? We have merely taken these apparent material conditions to be matter of fact, without question, and have submitted to the misery and want and was resultant therefrom as inevitable visitations of a divine providence of which we were supposed to know little or nothing until, perhaps, we had passed the portals of another existence. We have hardly once stopped to consider what Jesus said and did about these conditions which we have so long attributed, in our ignorance, to God. But when, my friends, we have been called to a halt in our loose and reckless methods of thinking about God and man, and about Jesus and his works, we have been brought face to face with the fact that there is hardly a word uttered by Jesus or an act committed by him in the course of his ministry that does not completely deny, controvert and overturn some so-called material, or physical law. And if we will follow him in his three years' work with men in his effort to establish the kingdom of heaven on earth we will find that in those three years there is not a single evidence of material existence, not a single so-called law governing material living and material phenomena which forms a part of our daily experience, that Jesus ever openly applied through his intelligent application to things termed the Law of God which he characterized as the "Truth" which he said would make us all free when known or understood. "Ye shall know the truth," Jesus said, "and the truth shall make you free." That is, ye shall know and understand this Law of God which I here expound and prove to you and this knowledge shall give you power over all things material, thereby setting you free from these so-called laws which have so long held mankind in bondage. Jesus said, "Think not that I am come to destroy the law or the prophets; I am not come to destroy, but to fulfill." And then he proceeded to break down and destroy every physical law of which we have any cognizance, through his application of God's Law.

And this Law of God—this Law, the knowledge and application of which Jesus said should make us free—is what Christian Science has come to re-establish with men. Those wonderful works of Jesus prove conclusively that laws of matter are not God's Laws and that God's Laws are not only superior but are actually laws of annihilation to so-called material laws and thereby prove that material laws are the product of a mortal misconception of what constitutes true law. Now, it is perfectly evident that Jesus in his presentation to humanity of a law higher and more powerful than so-called material law, did not give to mankind a law of his own inventing. He established God's Law which has existed throughout all time, the evidence of which runs as a golden thread throughout all history. The existence of this Law of God can be traced throughout the lives of the prophets and patriarchs, coming to light at intervals in history of humanity when some one, through pure spirituality, rose high enough in thought to soar above the lettering bond of crass materialism and glimpse the glories of an existence where in man may be found in the image and likeness of his Maker, subject only to the Law of God—the Law of God. As we contemplate with prayerful care the life and works of our Master, as we study carefully all that he said in connection with his many wonderful works, we become impressed, more and more, with the gratifying conviction that the understanding and application, in our daily living, of the truths or laws, which he expounded constitute that Comforter which Jesus said he would send to us and which will, when understood and applied by us, free us from all those ills to which we have ever considered mankind naturally subject.

We find, with reassurance, that this Law of God is a law of life—not of death; a law of abundance—not of lack and limitation; a law of harmony—not of discord; a law of peace—not of strife; a law of love—not of hate. And oh! if we could but comprehend what this law of love embraces. How sadly this old world needs love, the love that Jesus gave to the world and of which the apostle spoke when he said, "Love is the fulfilling of the law." What a ministry of love was that of Jesus! He could be compared to that love which endured, without murmuring, the world's hatred and scorn that you and I might understand that the Law of God is omnipotent and omnipresent; that we might know that there are no material conditions over which this Law of God has not all power? It was this love expressed through Jesus which enabled him to prove that there is no death, and whereby he emerged from the tomb to perpetuate throughout the ages man's inalienable right to life eternal. Writing of this experience of Jesus, Mary Baker Eddy, the Discoverer and Founder of Christian Science, says on page 44 of her book "Science and Health with Key to the Scriptures":

"The lonely precincts of the tomb gave Jesus a refuge from his foes to a place in which to solve the great problem of being. His three days' work in the sepulchre set the seal of eternity on time. He proved Life to be deathless and Love to be the master of hate."

Universality of God's Law.
Turning back through the ages to the earliest periods of human history we find in the lives of

patriarch and prophet ample evidence that this Law of God has been understood and proven in a greater or less degree at various times throughout the centuries. The forty years' struggle of the Israelites in the wilderness under the leadership of Moses furnishes us numerous examples of the ability of mankind to overcome human or mortal conditions through the understanding and correct application of God's Law. In the very beginning of their flight from Egypt these worshippers of the true God were confronted with an impassable sea on one side of them and the pursuing Egyptians on the other with the result that through Moses' understanding of, and ability to apply, this ever-present Law of God the waters were divided and the Israelites passed through on dry land, thus escaping from their enemies. This ever-present Law of God fed and sustained them when it seemed humanly impossible to obtain food or drink. You will recall how the manna was furnished them in the desert from a rock in a dry and parched country. Then following on through the centuries every now and then we find some spiritual character bringing to light the wonders of God just as did Moses and Jesus in the healing of the sick, the raising of the dead and countless other ways. In the Book of Kings we read how, through his understanding of God's omnipotent Law, Elisha caused the ax-head to float in the water; how he restored to life the son of Shunammite mother; how he multiplied one small pot of oil so that all the vessels at hand were filled to running over; how one hundred barley loaves with much left and to spare. Then in the Book of Daniel we see how this Law of God delivered Daniel from the hunger of the lions and how the three Hebrew young men, Shadrach, Meshach and Abednego, demonstrated the ability of God's Law to save them from the furnace of fire and to deliver them therefrom without so much as the smell of smoke remaining to bear evidence of their ordeal. And so on throughout all history are we confronted with the unmistakable evidence of the force of this Law of God which, in all ages and in all places, is available and applicable to every need we will but understand and apply it. In the first Psalm we have this most reassuring promise:

"Blessed is the man that walketh not in the counsel of the ungodly, nor standeth in the way of sinners, nor sitteth in the seat of the scornful. But his delight is in the law of the Lord; and he will meditate day and night. And he shall be like a tree planted by the rivers of water, that bringeth forth his fruit in his season; his leaf shall not wither; and whatsoever he doeth shall prosper."

The Bible is full of just such promises, my friends, and what is more, it is full of accounts, for our instruction and edification, of the wonderful works accomplished by those who have learned to understand and put into practice this Law of God.

Life and Works of Jesus.
Coming down to Jesus' time, we find in the life and teachings of the humble Nazarene the most complete explanation and exposition of this Law of God ever given to mankind. In his turning the water into wine at the wedding feast, his first public demonstration of the power of God's Law, he at once proved that all true law is spiritual, or mental, and what we term matter, is, of itself, not a law-maker; that all the so-called laws of matter may be annulled and set aside completely by an intelligently application of God's Law. In his healing of the son of the nobleman at Capernaum when he was a long distance from the sick man, and in his instantaneous transportation of the ship across the sea of Galilee, Jesus not only proved the omnipotence of God's Law over material manifestations but he proved, at the same time, that even material existence, as such, is but the product of a mistaken mental concept, and that time and place and space are but phases of this mental miasma or dream-drama. When he walked the waves he completely overcame one of the most unvarying material laws, and thereby proved, to all eyes, that he had more than any knowledge. In this instance Jesus proved that true substance is not materially composed and that there is but one true attraction, the attraction of God, or God's Law. When he fed the thousands in the wilderness with a few loaves and fishes Jesus repeated and emphasized what Moses and Elisha had accomplished centuries before. In each of these instances it is proven that not only is man's supply infinite and ever available but that the multiplication enjoined upon man by God, in the first chapter of Genesis, is a process dependent wholly upon submission to the Law of God and not upon any human concept of propagation and increase. And what did the many, many instances of healing centuries before. In each of these instances it is proven that not only is man's supply infinite and ever available but that the multiplication enjoined upon man by God, in the first chapter of Genesis, is a process dependent wholly upon submission to the Law of God and not upon any human concept of propagation and increase. And what did the many, many instances of healing centuries before. Full Report of Lecture

By William D. Kilpatrick on
"Christian Science—God's Law"

(Continued from Page Ten.)

thought, ever on the alert for the true channel which leads out into the motherly bosom of the great, peaceful river, we shall eventually arrive at that point in our journey where the way will open wider and brighter each day of our voyage. At first we encounter the snares and snags which lie subtle hidden underneath the calm waters, but we soon learn that there is always a way around these seeming obstacles and there is that ever ready hand to help and save when we fear lest our little boat sink. And as we go we learn that these rocks and snares and snags which try to delay and arrest us are no part of this beautiful stream but that they belong to the shores of materialism from which we have but recently departed, and that the farther we are able to pilot our little boat out into the deeper waters of this heavenly stream the farther are we getting away from the snares and snags of the banks. And then, one day we become conscious that the old landmarks are fast receding in the dim past, that the shores are fast disappearing, that no longer is there the feeling of dependence on things material and with joy and confidence born of experience we find ourselves far from the hidden and treacherous entanglements of the enemy, and thus on and on we go knowing always that the dear Father is ever with us to guide, to protect and to save.

I would not leave with you this evening the impression that Christian Scientists claim to have achieved the ultimate of Christian Science. They have not. They have but begun the work leading to the right solution of life's problems. They have had their failures along with their achievements but they are still striving to become worthy disciples of the great Master. Waiting of the accomplishments and the future of Christian Science, Mrs. Eddy has said in Science and Health:

"I have here supposed the world would immediately witness the full fruition of Christian Science, or that sin, disease and death would not be believed for an indefinite time; but this I do aver, that as a result of teaching Christian Science, ethics and temperance have received an impulse, health has been restored and longevity increased. If such are the present fruits, what will the harvest be when this Science is more generally understood?"

And now, in closing, I wish to leave with you for helping contemplation those reassuring promises of the Sweet Singer, David, given us in the ninety-first Psalm:

"He that dwelleth in the secret place of the most High shall abide under the shadow of the Almighty."

"He shall cover thee with His feathers and under His wings shalt thou trust; His truth shall be thy shield and buckler."

"Thou shalt not be afraid for the terror by night; nor for the arrow that flieth by day;

"Nor for the pestilence that walketh in darkness; nor for the destruction that wasteth at noonday."

"A thousand shall fall at thy side and ten thousand at thy right hand; but it shall not come nigh thee."

"Because thou hast made the Lord, which is my refuge, even the most High, thy habitation;

"There shall no evil befall thee, neither shall any plague come nigh thy dwelling."

"For he shall give his angels charge over thee, to keep thee in all thy ways."

"Because thou hast made the Lord, which is my refuge, even the most High, thy habitation;

"There shall no evil befall thee, neither shall any plague come nigh thy dwelling."

"For he shall give his angels charge over thee, to keep thee in all thy ways."

"Because thou hast made the Lord, which is my refuge, even the most High, thy habitation;

"There shall no evil befall thee, neither shall any plague come nigh thy dwelling."

"For he shall give his angels charge over thee, to keep thee in all thy ways."

"Because thou hast made the Lord, which is my refuge, even the most High, thy habitation;

"There shall no evil befall thee, neither shall any plague come nigh thy dwelling."

"For he shall give his angels charge over thee, to keep thee in all thy ways."

"Because thou hast made the Lord, which is my refuge, even the most High, thy habitation;

"There shall no evil befall thee, neither shall any plague come nigh thy dwelling."

"For he shall give his angels charge over thee, to keep thee in all thy ways."

"Because thou hast made the Lord, which is my refuge, even the most High, thy habitation;

"There shall no evil befall thee, neither shall any plague come nigh thy dwelling."

"For he shall give his angels charge over thee, to keep thee in all thy ways."

"Because thou hast made the Lord, which is my refuge, even the most High, thy habitation;

"There shall no evil befall thee, neither shall any plague come nigh thy dwelling."

"For he shall give his angels charge over thee, to keep thee in all thy ways."

"Because thou hast made the Lord, which is my refuge, even the most High, thy habitation;

"There shall no evil befall thee, neither shall any plague come nigh thy dwelling."

End of 3800-Mile Hike

Percy J. Hinton, his wife and their daughter, Marguerite, two, snapped as they walked into Philadelphia. (That ended a 3800-mile hike from California, on which Hinton says he hunted work. He said one man put down his Bible to kick him off the premises.)

EDITORS IN INDIA BEING PROSECUTED

Charges of Sedition are Lodged Against them—Some Papers Now Appearing in Manuscript Form.

CALCUTTA. —Editors of several Indian periodicals have been prosecuted by the government on charges of sedition based on articles favoring the non-cooperation movement of which M. K. Gandhi is the head.

One of those arrested on that charge was the printer of the Bengali periodical entitled Banglar Katha, of which C. R. Das, president of the Indian national Congress, is editor. The case was adjourned.

The editor of the Bharatmitra, whose name is Pandit L. N. Garg, has been arrested. Here under criminal law amendment act and an offer of bail has been refused. After convicting Akram Khan, editor and publisher of three vernacular papers, the government has forfeited the security of 5,500 rupees which had been deposited in his name as keeper of the Mohammadi Press. A fresh security of 2,000 rupees has been demanded from the new keeper and all 2,000 rupees from each of the three papers.

At Allahabad, government agents have called upon the Swara, a Hindi newspaper to provide fresh security of 2,000 rupees after the government had forfeited the newspaper's security previously given. The Swara is now appearing in manuscript like its contemporary, the Independent.

In the same city the Democrat having failed to deposit the security demanded under the press act, has ceased publication.

Reports of arrests and convictions under the criminal law amendment act have been received from Allahabad, Bara Banki, Sitapur, Aligarh, Benares, Moradabad and other places.

More than 150 congress volunteers were arrested in Calcutta within five days.

NOTICE TO TAXPAYERS

The tax books are now in the collector's office and taxes extended stand as judgments against all parties mentioned therein.

Persons paying on personal property only should pay the tax promptly and avoid trouble and expense in collection. The judgment reads as follows: "In case any person named in said books shall neglect or refuse to pay their personal tax, you shall levy the same by distress and sale of goods and chattels of such persons." Parties paying on real estates should bring their old tax receipts to save time and avoid mistakes. If paying thru the banks, leave your old receipts with your bank as soon as possible.

CITIZENS GET PAID FOR CUTTING WOOD

Munich.—There may be a suggestion for Americans in the fact that a small town in northern Bavaria recently gave to each inhabitant a present of 60 marks derived from the sale of wood cut in the municipal forest which was planted 15 or 20 years ago.

Germany for several years has expended much energy in reforestation, many of the municipalities thruout the country owning forests which are carefully nursed and used as public works by the local inhabitants.

SPECIAL DISPLAY

We announce the special display of all the newest creations in Spring Millinery for Saturday. Everybody cordially invited.

BEARDSTOWN IS BEING CLEANED BY STATES ATTORNEY

Beardstown, March 9.—State Attorney L. M. McClure issued orders Tuesday announcing the immediate closing of all public houses of prostitution which for years have been in operation in Beardstown. Legal notices were served upon proprietors of said places commanding them to either vacate the places before Monday March 13th, or they would be subjected to action of the sheriff's office in raiding the places. Pitching furniture into the streets and nailing up the doors. The states attorney has enlisted the aid of state authorities in his "clean-up" move and if orders are not followed to the letter a petition for injunction under the "abatement act" would follow the first close-up notice. He also intimated that inmates of such places should not be dumped in the city and on the streets to further ply their trade and declared that rigid prosecution of suspicious characters upon the streets or other public places would be made if conditions warranted. The rigid action follows several months of investigation on the part of states attorney and officials of the state department of public health who have visited the city and conducted investigations. The states attorney is loyally supported by the sheriff's office. It was understood Tuesday evening that proprietors of the places had agreed to "close-up shop" within the stated time and if done no legal actions will be necessary.

The robbery of a C. B. & Q. box car in the local yards and an attempt to break into the Meyers grocery store at Twelfth and Jefferson streets Monday night constituted the work of Beardstown thieves. Details of the robbery in the yards were withheld by company detectives who have a line on the case.

A railroad brake shoe key was used in the attempt to gain entrance into the grocery store and the key with a leather money bag were found by Merle Allard, manager of the store when he arrived at work Tuesday morning. Authorities believe the thieves found the key gaining an entrance too much for them and the tools which they had and abandoned the attempt. A night light makes it impossible to gain an entrance through the front of the building. However the thieves would have been disappointed for there was only three cents in cash in the register and this was by error.

ESKIMO PIE

The candy way of eating ice cream. A food, not a fad. Buy it any place you see the sign, Eskimo Pie.

MADE ONLY AT MERRIGAN'S

Mrs. S. H. Cram of Litchberry was doing shopping in the city yesterday.

K. C. TEAM GUESTS AT TONIGHT'S GAME

The members of the Knights of Columbus basketball team and their lady friends will be the guests of the Dokays at the game tonight between Myers Brothers of Springfield and the D. O. K. K. five. There has been a great deal of friendly rivalry this season between the K. C. quintet and the Dokay five and last week the K. C.'s invited the Dokays to be their guests at the Minstrel show. Thruout the season a spirit of real sportsmanship and friendly feeling has prevailed between the two teams.

Vote for C. H. Swaby for alderman in second ward next Tuesday, March 14.

At Beardstown, Meyer Hotel, Wednesday, March 15th

Last Spoonful Same as the First

Calumet is made under such exacting conditions — packed in such a scientific manner, that its leavening strength and purity never vary. It retains its original strength for months after leaving the factories.

When you tip the can to get the last spoonful, you know your baking will turn out all right—the last spoonful is the same as the first. This uniform quality of

CALUMET BAKING POWDER

is cause for its big demand. Housewives know they can depend upon the results obtained—that climatic conditions or temperature cannot deteriorate its positive leavening power.

When you buy baking powder remember these facts—that a uniform leavener means bakings that do not vary in quality—that Calumet is uniform.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 ounce instead of 16 ounce cans. Be sure you get a lb. when you want it.

(The Arcade)WORK COMMENCES ON
BRIDGE AT MEREDOSIA

Wabash Railroad Begins Work on The Approach to Bridge—Miss Rachel Bollyard Weds in Decatur—Other Meredosia News.

Meredosia, March 8.—Work on the Wabash bridge is now in progress. Wednesday eleven teams and drivers and thirteen extra men were working at the east end of the bridge where they now have the fill on the south side of the track ready for the rip-rapping. The north side will be ready by Thursday. The rip-rapping is to be made of one-man stone rip-rapping and wire. It is estimated that it will take 15 car loads of the stone rip-rapping. The grading is under the supervision of W. F. Roegge of this place. The assistant engineer of the Wabash was here Wednesday setting the stakes for the approach to the bridge on the Pike county side. Much interest is manifested and each one is ready and willing to do his bit toward the planking of the bridge.

Miss Rachel Bollyard left Monday morning for Decatur where she was united in marriage to Samuel Amacher of Farmer City, at one o'clock Monday afternoon. The ceremony took place at the home of Lemuel Odaffer 835 N. Main street. Rev. A. M. Wells, pastor of Grace Methodist church officiated using the double ring ceremony. The couple will reside in Farmer City.

Miss Bollyard is well and favor-

ably known here in Meredosia where she is very popular with the younger set. For some time past she has been employed in C. P. Hedrick's restaurant. They have the best wishes of a host of friends here for a long and happy married life.

Wm. Winty and James Mayes were business visitors in Jacksonville Tuesday. Mr. Winty remained, being one of the jurors on the Pires case.

Miss Beulah Wade, of Alton, came home Thursday for a visit with her mother and other relatives.

Mrs. C. H. James and daughter, Mrs. Frances Euke and the former's grandson returned home from Jacksonville Tuesday.

Rev. E. T. Palmer and wife, Mrs. S. M. Palmer were guests of L. F. Berger and family on Wednesday.

Wayne Sumpter, oldest son of Frank Sumpter of this place was taken to a hospital at Jacksonville Wednesday.

Hal Naylor and wife, Mrs. H. H. Hamman and son Bernard and Mrs. Henry Althorn motored to Jacksonville Wednesday.

Joseph Schmitt went to Decatur Tuesday to attend a three day session of school of instruction for R. A. Masons.

W. D. Meter made a business trip to Chapin Tuesday.

Mrs. W. T. Hedenberg, of Versailles, spent Wednesday with Mrs. J. H. Looman.

Mrs. G. M. Smith and daughter Frances Mardel of Pittsfield came Wednesday for a visit with W. L. Wilday and wife.

Mrs. Earl Pond and baby of Beardstown arrived Wednesday and will visit with her parents Mr. and Mrs. Jno. Hughes.

Mrs. E. J. Howard left Tuesday morning for her home in Moberly, Mo., after a two weeks visit with her sister Mrs. Arvilla Gilliland.

Mrs. G. A. Bennett visited with her parents in Jacksonville Tuesday.

J. S. McGinnis loaded his household goods in a car Monday and shipped them to Jacksonville where he and his wife will reside near there on a farm.

Jno Naylor and wife Mrs. Dave Giger, Mrs. Henry Kuhlman, of Arenzville spent a few hours in visiting Wednesday afternoon with Mrs. G. H. Yost.

WOMEN USE CARE

WITH FAMILY INCOME

URBANA, Ill., March 8.—That the American woman of today is realizing more than ever before the need for the wise expenditure of the family income, is the belief of Miss Margia Haugh, clothing specialist in the department of home economics of the university of Illinois, who was one of the speakers before the department of household science of the Illinois Farmers' Institute at Monmouth, Ill.

"The constant change in fashion and the increasing demand for a greater variety in materials and clothing has resulted in the 'imitation of good materials and in the production of inexpensive materials,'" said Miss Haugh.

"Prices at one time gave us some indication as to the quality of a fabric or garment. Prices at present do not designate the value or merits of a material because each season we find new fabrics of poor wearing qualities and had designs appearing upon the market and selling at an unreasonable price. This is due to the fact that the materials are new and faddish.

"To combat these conditions, we must give more thought and study to the selection of materials. The woman who is considering this problem seriously today does not hesitate to test out a sample of the material before purchasing when she is uncertain as to its wearing qualities.

"If a woman is to become efficient in the selection of material she must know something about the 'look' and 'feel' of the four leading textile fibres of cotton, linen, silk, and wool; the standard materials made from these fibres, their width and price per yard, and the time producing the most reliable goods; the effect of the weave construction of a fabric upon its wearing quality; the methods by which materials are cheapened and the simple methods of testing."

ANNUAL MARRIAGE MADE UNDER HYPNOTISM

Manila, P. I.—By the A. P. J.—The court of first instance has annulled a marriage contract which was entered into while the girl was under the spell of hypnotism. Dominga Olivares, the victim, was hypnotized by Blas Angeles at her home. She was taken to the residence of a minister and made to sign a marriage contract, all being done while she was under the spell.

The court says that "altha the signature of Dominga Olivares appears in the marriage contract, it can not be sustained that there has been any solemnization of the marriage as long as there was not any real affection for the defendant, Blas Angeles, whom she had known only for three days while he was giving an exhibition of slight-of-hand at her home."

TO LEND—SPECIAL \$9,000, in one sum, or divided to suit borrower. The Johnston Agency.

Everett Long of Litterberry was among the visitors to the city from the north part of the county Thursday.

Charles Stevenson of Little Indian was transacting business in the city Thursday.

J. M. Fountain of Chapin journeyed to the city yesterday.

HORNETS MADE
THE FIRST PAPER

Used in Building Hives is Similar to That Manufactured Now

KANSAS CITY, Mo.,—(By the A. P.)—Hornets make the original paper makers. The paper that is made by them is in many respects similar to ours and it is quite possible that we gained our ideas of making paper by watching these busy little workers. They, however, have always made their paper of wood pulp while with us the use of that article is a comparatively recent development in the paper making industry.

To the hornet, the making of this paper is of the greatest importance as it furnishes the material for the hives in which they raise their families.

Their method of constructing these hives is an interesting one. After first selecting a place, they cover it with mucilaginous paste to which they fasten their nest.

The material that they use is wood obtained from old fences or the dead limbs of trees. This wood pulp is worked by the mandibles of the wasp and when mixed with the adhesive secretion of the salivary glands, produces a substance that is essentially paper. When very good paper is required, the flake is allowed to dry and is chewed again, sometimes two or three times before it is used.

Their hives are composed of horizontal tiers of hexagonal cells about the size of those in the comb of honey. These tiers are placed one above the other and are supported by columns, the whole being enveloped in many thicknesses of water proof paper. In each of these cells an egg is placed which later hatches into a full fledged wasp and the laborious process of making paper is carried on by these new little builders.

BASKETBALL TONIGHT

PRACTICAL WORK AT ILLINOIS.

URBANA, Ill.,—(By the A. P.)—Practical experience in social work is being given six women of the University of Illinois in connection with an advanced course in sociology through the co-operation of the Urbana-Champaign United Charities association. Students are required to sign for one year's work although the course in sociology is only of one semester's duration.

University women engaged in the work are: Hazel Walker, of Gays; Margaret Palmer, Urbana; Nora Patterson, Robinson; Marybell Glos, Elgin; Elyn Olson, Chicago and Dorothy Cockrum, Oakland City, Ind.

Through the agreements an opportunity is given the students to determine by actual experience whether they wish to continue in social work.

A number of graduates of the University who have worked with the association in Urbana and Champaign are now in actual field work. Among those are Irene Liggett, supervisor of field work in St. Louis, Ruth Bartholomew a United Charity Worker in Chicago and Fay Willerton, field worker for the Illinois Children's home in Chicago.

Fritz Kreisler, violinist, state arsenal, Springfield, Ill., March 23, 8:15 p. m. Mail orders with self-addressed stamped envelope to Elberta Smith, 1100 So. 6th St., Springfield, Ill. Tickets \$3, \$2, \$1, no tax. Trip via bus line. Call Brown's Music house for particulars.

WOMEN WILL DEBATE IN APRIL.

URBANA, Ill.,—(By the A. P.)—Women students of the University of Illinois will engage for the first time in intercollegiate debate, when Illinois and the University of Indiana meet in a women's debating contest here April 28.

The subject of the debate on which a one-man decision will be given, will be: "Resolved: That

Opposite Post Office

the territorial, political and economical integrity of China is the solution of the problem of maintaining peace in the Pacific.

While this will be the first time that women from the University of Illinois have composed a debating team, they have in the past engaged in intercollegiate oratory. Last spring, Gladys Pennington, of Kansas City, then a senior, won second prize in the Northwestern Oratorical league contest. This was the first time in the history of the league that a woman was awarded a prize.

Rose Oltusky, a senior from Waukegan, and Mary E. Hanger are the first two women to become contestants for places on the Illinois team, which will have its preliminary tryouts on March 23, with the final choices to be made a week later.

WILL ADDRESS GREENE COUNTY MEDICAL SOCIETY

Dr. F. A. Norris of this city will go to Carrollton today to make an address before the Greene County Medical Society which meets there in regular session. Dr. Norris will give an address on "Surgery of the Upper Abdomen" and will illustrate his lecture with stereopticon slides.

What
Fordson Owners
Say

The man who can Talk With Authority is the man who has Used the FORDSON on his farm

H. M. Berryman, Franklin.

The Fordson is the handiest and cheapest tractor to operate. You can plow anywhere that you could use four horses. It is more economical. Working down wheat ground, I pulled a 16 disc with a 10 foot harrow behind, and would run a day and half on 13 gallons of Kerosene.

On the 24th of December I used my tractor to break down weeds on 20 acres of wheat stubble. The weeds were covered with ice and broke all to pieces. I hitched a long pole behind the tractor, and was only 3 1/2 hours breaking the 20 acres. I first intended to use horses but found they would walk in the weeds as they were high, and the ice frozen on them hurt the horses' legs. So I had to

try the tractor and found the Fordson O. K. for the job.

John Brown, Alexander.

I think the Fordson is about as good a light tractor as built for the farm.

Harold Cockin, Alexander.

From what experience I had with this tractor and other makes, and the running condition our tractor was in when we put it away, and its handiness around jobs, must say I would buy another Fordson before I would buy any other. Will say they are the handiest and simplest tractor, with which I have had any experience.

SWIFT RETURNS
IN GRAIN VALUES

By Associated Press.
CHICAGO, March 9.—Swift
downturns in the value of grain
resulted from heavy selling today
largely due to ending of the
drought which has affected the
southwest. Wheat closed unset-
tled 2 to 6 1/2¢ net lower, with May
\$1.36 to \$1.37; and July \$1.17 to
\$1.17 1/2. Corn finished 2 1/2¢ to
3 1/2¢ down, oats off 1 to 1 1/2¢ to
2 1/2¢ and provisions at a set-
back of 17¢ to 20¢. With snow
and rain in Kansas, Oklahoma
and Texas said to be ample to
bring up all wheat yet alive and
to assure excellent growth with
right weather conditions hereafter
it was quickly apparent that the
buying side of the wheat market
was at a big advantage.

Smallness of farm stocks of
cereals as shown in the govern-
ment report evidently had led to
the most part discounted in
advance and altho moderate up-
turns in price took place on the
opening the majority of dealers
were soon seen to be pressing to
sell. In particular the selling out
of two big holdings of wheat, one
for an eastern and the other for a
Chicago operator, tended to bring
about general liquidation. Accord-
ing to the Chicago market, the
weakness in the May delivery was
a feature owing to the closing out
of spreads between that month
and July and before the day was
over May was down more than
six cents from yesterday's finish
and 14 cents from recent top
figure.

Corn and oats gave way in sym-
pathy with wheat. For the time
being the corn market appeared
to have no good support except
from speculators who had previ-
ously been sellers and who were
therefore in a position to take
profits.

Lower prices on land at Liver-
pool together with the break in
grain values here weakened the
provision market despite an ad-
vance in hog values.

KANSAS CITY LIVE STOCK

By Associated Press.
Kansas City, Mo., March 9.—U. S.
Bureau of Markets.—Cattle.—Re-
ceipts, 3,600; beef steers steady to

CASH GRAIN
REPORT

By Associated Press.
CHICAGO, March 9.—Wheat in
the cash market was weak today,
but did not follow the futures as
receipts were light. The close was
3 to 4 cents lower as compared
with the previous closing prices.
Premiums and discounts were un-
changed. The seaboard reported
1,500,000 bushels of rye taken for
export.

Corn was weak. The trading
basis was slightly better while
corn was leading with a gain of
3 to 1 1/2¢. The demand continues
very good for white corn. Ship-
ping sales were 265,000 bushels
including 100,000 bushels to ex-
porters. In oats the trading basis
was 1/2 to 1¢ better.

Shipping sales were 80,000 bu-
shels. Car

HELD SALE THURSDAY
Charles Bennett and father held a sale at the farm east of the city yesterday afternoon, disposing of several head of horses and farm implements at fair prices. Charles M. Strawn was the auctioneer.

DOKAYS PLAN FOR BIG CEREMONIAL
Hiderim Temple, No. 32, D. O. K. K., are planning to have a three days' ceremonial session in Jacksonville April 18.
The Knights of Pythias have been very active for several months in securing new members. The D. O. K. K. lodge being an auxiliary of the Pythias order makes it possible for the Dokays to have many candidates. However there are being arrangements made to initiate many candidates from out of the city and there will doubtless be a number of tyros from all over the district.
Committees have been appointed to perfect plans for the reception and entertainment of the visitors.

Harmony Lodge No. 3 A. F. & A. M. will hold a special meeting this evening at 7:30 o'clock. WORK. Visiting Brethren welcome.
J. W. Hughett, W. M.
John R. Phillips, Secy.

\$75,000 or More

Babe Ruth's new contract with the Yanks calls for \$50,000 a year with a \$500 bonus for each home run. That, for a period of three years.

REBEKAHS WILL CONFER DEGREE
At the regular meeting this evening Jacksonville Rebekah Lodge No. 13 will confer the degree of the order upon several candidates. This will be followed by a social hour and refreshments will be served.
ESKIMO PIE
The candy way of eating ice cream. A food, not a fad. Buy it any place you see the sign, Eskimo Pie.
MADE ONLY AT MERRIGAN'S

ANOTHER WRECK
ON WABASH R. R.
Another wreck, the second of the week, occurred on the Wabash yesterday. This time the wreck was near New Berlin and a freight train was the victim. Several cars left the track doing considerable damage to the right of way and delaying traffic for several hours. Passenger trains Nos. 12 and 28 were detained by way of Murrayville.
